Staff are of course encouraged to join their local nurse bank and local organisational bank contact details are attached overleaf. However, NHS Wales recognises that nursing agencies can perform an important role in helping align the supply of nursing staff when there is increased demand.

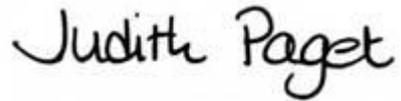

When agency staff are utilised to meet high demand, NHS Wales employers are committed to using the agencies listed on the All Wales contract in the first instance.

However, if staff wish to ensure they secure agency shifts in NHS Wales they are strongly encouraged to work for the aforementioned agencies on the All Wales contract. It is the intention, over the forthcoming months, that NHS Wales will commit to only using Agencies that are on the All Wales Contract.

Yours Sincerely,

NHS Wales Chiefs Executives
