Dear Tracy

Field Hospital Review – Swansea Bay University Health Board

Welsh Government has now received the final report from the Integrated Assurance Hub regarding the field hospitals at Swansea Bay. I understand that Health Board colleagues have been fully included in the review. In particular, the role of Senior Responsible Office was shared between your Director of Finance and the Health Department's Deputy Director of Capital Estates & Facilities, and that you have opportunity to comment on factual accuracy. I am enclosing the final document.

The report is intended to capture learning from the field hospitals development, as well as identify the key residual risks and potential mitigating actions. I would be grateful for confirmation that the Board has considered the report and accepts the recommendations. In addition, I am keen to see the Health Board's response to the recommendations. I would be grateful if an updated action plan could be provided by 4 September. Given the Delivery Confidence Assessment, the review team have advised that a follow up Assurance of Action Plan (AAP) exercise should be undertaken within 6 weeks. It would be helpful to receive a copy of the AAP in due course.

Yours sincerely

Dr Andrew Goodall CBE
