Key Issues	<p>The Integrated Performance Report is a routine report that provides an overview of how the Health Board is performing against the National Delivery measures and key local quality and safety measures.</p> <p>The focus of the report will be adjusted for April 2024 reporting to give clear focus on the measures to be monitored as part of Targeted Intervention (TI) escalation for performance and outcomes. A discussion was held with Welsh Government on 11th March 2024 and discussions are ongoing to establish the precise metrics for inclusion in the escalation framework.</p> <p>Key high level issues to highlight this month are as follows:</p> <p>-</p> <p><u>COVID19</u></p> <ul style="list-style-type: none"> - The number of new cases of COVID19 remains minimal with 70 new cases reported in February 2024. <p><u>Unscheduled Care</u></p> <ul style="list-style-type: none"> - Performance against the 4-hour access is marginally below profile at 74.3% in February 2024 a deterioration of 2.1% from the previous month. - Performance against the 12-hour wait has deteriorated in February 2024 to 1,197 from 959. - In February 2024, there were 629 ambulance to hospital handovers taking over 1 hour; this is a decrease of 75 compared with the previous month.

INTEGRATED PERFORMANCE REPORT

1. INTRODUCTION

The purpose of this report is to provide an update on current performance of the Health Board at the end of the most recent reporting window in delivering key performance measures outlined in the NHS Wales Delivery Framework and local quality & safety measures.

2. BACKGROUND

The NHS Wales Delivery Framework sets out measures under the quadruple aims which the performance of the Health Board is measured. The aims within the NHS Delivery Framework are:

- **Quadruple Aim 1:** People in Wales have improved health and well-being with better prevention and self-management
- **Quadruple Aim 2:** People in Wales have better quality and more accessible health and social care services, enabled by digital and supported by engagement
- **Quadruple Aim 3:** The health and social care workforce in Wales is motivated and sustainable
- **Quadruple Aim 4:** Wales has a higher value health and social care system that has demonstrated rapid improvement and innovation, enabled by data and focused on outcomes

In recent years, performance management against the Performance Framework targets has been undertaken by reviewing the previous months' performance, to reduce the reporting function during the COVID-19 pandemic. Welsh Government have now deemed it appropriate to move away from reporting performance against the 'Quadrants of Harm' and focus will return to providing comprehensive performance updates in line with the All-Wales Performance Management Framework 2023/24.

3. GOVERNANCE AND RISK ISSUES

Appendix 1 of this report provides an overview of how the Health Board is performing against the National Delivery measures and key local measures. Mitigating actions are listed where performance is not compliant with national or local targets as well as highlighting both short term and long terms risks to delivery.

4. FINANCIAL IMPLICATIONS

At this stage in the financial year there are no direct impacts on the Health Board's financial bottom line resulting from the performance reported herein.

5. RECOMMENDATION:

Members are asked to:

- **NOTE** the Health Board performance against key measures and targets.

- **NOTE** that the report will be updated once TI measures are known.
- **NOTE** that work has commenced to develop and add key reporting measures for Primary and Community Care Services

Number of patients who spend 12 hours or more in A&E (last 90 days)	In February 2024, performance against the 12-hour measure deteriorated when compared with January 2024, increasing from 959 to 1197. This is an increase of 238 compared to January 2024. All 1,197 patients waiting over 12 hours in February 2024 were attributed to Morriston Hospital.	A total of 8 virtual wards are now fully operational and the benefits of these are being experienced. The additional flow provided by the virtual wards and community engagement will support the flow from the ED department and the next stage includes NOF pathway changes and extended virtual wards.

Single Cancer Pathway backlog-patients waiting over 63 days	February 2024 saw an increase in the number of patients waiting over 63 days. The following actions have been outlined to support backlog reduction; <ul style="list-style-type: none"> - Individual meetings have taken place with tumour sites to explore additional work to support a further reduction in the backlog. - The cancer tracking facility has now been centralised (October 2023) to support focussed tracking with a whole system approach - Targeted work is being undertaken to focus on reducing the number of patients waiting >104 days as a priority - Milestone targets for OP access and Decision to Treat times have also been set to reduce overall pathway waits. Description	Current Performance	Trend																																																				
<p>Revenue Financial Position – expenditure incurred against revenue resource limit</p>	<ul style="list-style-type: none"> Planned deficit submitted in March this year was £86.6m. The Welsh Government has now allocated SB an additional £60m but they have also told us that we have to reduce our planned deficit from £86.6m to c£77m. That's a 10 per cent reduction in our planned deficit – a planned deficit that was already challenging to deliver. Taken together, to hit our new control total, we need to deliver savings of £18.66m. The actual month variance is an overspend of £1.18m and a cumulative overspend position of £41.16m. 	 <p>The chart displays the Health Board's financial performance from Month 1 (M1) to Month 12 (M12). The Y-axis represents the amount in £'000, ranging from -30,000 to 20,000. The X-axis shows months M1 through M12.
