

Bwrdd Iechyd Prifysgol Bae Abertawe Swansea Bay University Health Board

HS

Meeting Date	03 March 2020 Agenda Item 2.1			
Report Title	Health & Safety Risk Register Report			
Report Author	Hazel Lloyd, Head of Patient Experience, Risk & Legal Services			
Report Sponsor	Gareth Howells, Director of Nursing and Patient Experience			
Presented by	Hazel Lloyd, Head of Patient Experience, Risk & Legal Services			
Freedom of Information	Open			
Purpose of the Report	 The purpose of this report is to: inform the Health & Safety Committee of the risks from the Health Board Risk Register (HBRR) assigned to the Committee and; Report the underpinning operational health & safety risks and actions being taken to minimise the risks. 			
Key Issues	 Two Executive Team sessions on Risk Management were held in 2019. Revised HBRR was presented to the Audit Committee and Board in November 2019. Executive Directors have updated their risk entries and discussed the full HBRR. The register contains three risks assigned to the Health & Safety Committee. The risks assigned to the Health & Safety Committee: Health and Safety Infrastructure (64) Risk Rated 20 (Page 55 of the HBRR) Fire Safety Compliance (41) Risk Rated 15 (Page 20 of the HBRR) Environment of Premises (13) Risk Rated 12 (Page 14 of the HBRR) Consider whether any operational Health & Safety risks covered in agenda item 2.3 should be considered for 			

	inclusion onto the HBRR or whether any existing HBRR entries require updating.				
Specific Action	Information	Discussion	Assurance	Approval	
Required		\boxtimes			
(please choose one only)					
Recommendations	The Health & Safety Committee are asked to:				
	NOTE the updated Health Board Risk Register				
	 relating to risks assigned to the Committee. DISCUSS the risks assigned to the Committee and agree, subject to amendments, the risks for the Committee to oversee. 				

Health & Safety Risk Register Report

1. INTRODUCTION

This report aims to inform the Health & Safety Committee of the risks from the Health Board Risk Register (HBRR) assigned to the Committee and report the underpinning operational health & safety risks and actions being taken to minimise the risks.

2. BACKGROUND

The Health Board Risk Register (HBRR) is intended to summarise the key 'live' extreme risks facing the Health Board and the actions being taken to mitigate them. It is also important to note that the Executives, as risk owners, are appropriately sighted and involved in the development of the health board risk register, providing updates, including reports on mitigating actions.

All organisational risks will have a lead Executive Director and the risk assigned to either the Board, or as appropriate, a Committee of the Board to ensure appropriate review, scrutiny and where relevant updating. Each Director is responsible for the ownership of the risk(s) and the reporting of the actions in place to manage/control and/or mitigate the risks.

3. GOVERNANCE AND RISK ISSUES

3.1 Progress in developing the Refreshed HBRR

Two Executive Team sessions on risk management were held in 2019 following which the HBRR risks have been assigned to sub-committees of the Board. There are three risks assigned to the Health & Safety Committee of which one (highlighted in bold) relate to one of the highest risks facing the Health Board:

- Health and Safety Infrastructure (64) Risk Rated 20 (Page 55 of the HBRR);
- Fire Safety Compliance (41) Risk Rated 15 (Page 20 of the HBRR);
- Environment of Premises (13) Risk Rated 12 (Page 14 of the HBRR).

3.2 Operational Health & Safety Risks

Members will note the operational risks reported in Agenda item 3 and will need to consider whether the HBRR entries require updating or whether an operational risks should be included on the HBRR as new entries.

All risks are required to be entered on RL Datix in the Risk Register module to allow linking of operational risks to HBRR entries.

3.3 HBRR Risks Assigned to the Health & Safety Committee

The Committee is asked to accept the three risks, subject to any changes, to oversee, scrutinise and challenge in terms of actions being taken to minimise the risks and ensure the agenda is set to cover these areas of risks to enable reporting to the Board.

4. FINANCIAL IMPLICATIONS

There are financial implications to minimising the three risks entered on the HBRR in relation to significant revenue implication around strengthening resources in the Health & Safety team, Units and in Departments such as Estates. Capital monies will also be required in relation to supporting the improvements required to improve fire safety and the estate.

5. RECOMMENDATIONS

The Health & Safety Committee is asked to:

- **NOTE** the updated Health Board Risk Register relating to risks assigned to the Committee.
- **DISCUSS** the risks assigned to the Committee and agree, subject to amendments, the risks for the Committee to oversee.
