- The Health Board had a forecast deficit plan of £42.077m for 2021/22, which results in an anticipated monthly overspend of £3.506m.
- WG have now advised the Health Board to assume non-recurrent funding to support the 20/21 savings non-delivery £17.672m.
- This reduces the forecast deficit for 2021/22 to £24.405m, which is a monthly overspend of £2.034m.
- The cumulative position is £8.054m overspend against a planned deficit of £8.135m, a difference of £0.081m.
- The table provides a summary of the position by income and expenditure type. Please note the income excludes WG Revenue Resource Limit.

- The table provides an analysis of the financial position by Service Group and Directorate.
- It should be highlighted that the impact of the therapies budget transfer on the operational position of the Service Groups remains under review and some further realignment of budget and/or savings targets may be required. This is resulting in underspends within PCC and overspends in other service groups, predominantly MHLD.*
- This analysis highlights :
 - The MHLD overspend reflects the transfer of therapies and the loss of underspend that was supporting other elements of service pressure. The in-month improvement reflects the backdating of COVID response funding.
 - Morrison increasing underspend reflects reductions in non-pay underspends linked to service activity limitations and increasing pressures on pay budgets, particularly medical and nursing.
 - Board Secretary budgets require realignment to reflect changes to management structures. This realignment and recognition of agreed additional costs, should improve the currently reported position for the
 - Corporate plan position reflects the impact of WG anticipated funding for 2020/21 savings delivery impacts.

- The cumulative income budget to Month 4 is £444.851m.
- The actual income achieved in this period is £443.86m.
- There is an under-achievement of income of £0.991m.
- The key areas of under-achievement are dental, catering, rental and other patient related charges.
- It should be highlighted that over £0.6m COVID funding has been applied to income budgets in month, excluding dental.
- The LTA/SLA block arrangement remains in place for Q1 of this year and is anticipated to remain in place of the whole of 2021/22. The inflationary and performance impacts are being reviewed.

- The table provides an analysis of the workforce position by staff group.
- This workforce position has further improved in Month 4, although an element of this improvement is the backdating of COVID response and MHSIF funding into Mental Health and LD. This accounts for around £300k of the improvement.
- The overall pay costs increased by around £1.8m. This increase includes the payment of NHS bonus payment to Primary Care contractors £0.93m and has been matched with WG funding.
- The remaining £0.87m increase in costs, can be described as increases in variable pay £0.5m and increased costs associated with additional capacity and investments. This increase in cost has been matched by funding of COVID response, COVID recovery and investments
- The Health Board is incurring around £2.5m per month on COVID workforce response costs. These do not include the costs of staffing for TTP and Vaccination.

Non Pay

- Non Pay Budgets are underspent due to underspends on clinical consumables due to activity restrictions. The level of underspend has reduced in month as activity profiles have been increasing.

- ChC expenditure is an area of cost pressure, with expenditure running above budget. The key driver of this is MH and LD ChC, where significant growth on high cost packages of care from 2019/20 is being experienced. The initial cost pressure has been mitigated through other recurrent and non-recurrent means. General ChC cases have been increasing in recent months, which has resulted in growth pressures in the last month. This growth is being reviewed to understand the impact and implications.

- The Health Board has a gross savings requirement of £27.7m of which £29.4m in-year savings have been identified.
- £3.3m of these identified savings are still classified as Red and as such have a high risk of non-delivery.
- There are £29m of recurrent savings identified. The profile of these savings are Green £16.5m, Amber £5.2m and Red £7.3m.
- This increased risk profile reflects the bed efficiency schemes which are phased towards the end of the financial year and mitigated by non-recurrent opportunities in 2021/22
- Clear risk assessed plans and profiles are required to deliver the required £27.7m savings in full.
- All Service groups have been asked to develop plans to meet at least 50% of 2022/23 anticipated savings requirement by the end of September 2021. This will be supported by the Savings PMO.

Savings Profile

Green and Amber Savings Profile

- As shown in the previous slide the HB has identified £26.1m of Green and Amber schemes against a savings requirement of £27.7m, therefore £1.6m shortfall to be met through red scheme development and non-recurrent opportunities including investment slippage.
- To date the planned savings have been broadly delivered in full, with a total of £9k slippage.
- The full year forecast assumes all green and amber savings are delivered.
- The second graph provides the profile of the amber schemes and it can be seen that the amber savings profile increases in Quarter 3 and then has a further more significant increase in Quarter 4.
- The increasing amber profile is in the main related to bed utilisation efficiency opportunities. In order for these to be delivered the enabling service changes will need to be in place and the monitoring of these through the UEC Programme is essential to assess and understand any potential risks and mitigations.

The WG Monitoring returns include an assessment of the year end forecast on a month by month basis by expenditure type. This enables the HB and WG to monitor planned expenditure, although this will be impacted by new funding and costs during the course of the financial year. Work is in progress to support the correlation of these forecasts with local service group intelligence and service and activity plans.

Actions

- Medical and Dental
 - Urgent review of medical cost pressures and mitigating actions (Service Group Medical Directors)
 - Monitor performance against expenditure reduction plans.
 - All Service Groups have been asked to review and agree medical establishments. Review the position at Service Group and Directorate level with Medical Director
 - Ensure robust authorisation process in place for deployment of agency and ad-hoc sessions
 - Strengthen unit and Health Board oversight of directorate expenditure and compliance with rate cap.
- Nursing
 - Monitor performance against expenditure reduction plans through scrutiny panels.
 - Test roster policy compliance and authorisation processes including escalation of acuity.
- Savings
 - Savings delivery, risks and actions to be reviewed through the monthly performance reviews (Service Director, Director of Finance and Interim COO)
 - Amber schemes to be reviewed and clear milestones established to progress to Green within 3 months of identification (Service Director)
 - Red schemes must be progressed to green or amber within 3 months of identification. (Service Director)
 - Further savings opportunities must continue to be sought even where service groups have met the target to enable mitigation of the risks and pressures and support development of 2022/23 savings plans.
 - Clear position on bed utilisation efficiency opportunities, enabling service model changes and mitigating actions to be developed.
 - PMO recruitment commenced, this PMO will support the identification, tracking and monitoring of CIP delivery across all areas of the Health Board (Director of Finance)
 - Initial identification of savings schemes and opportunities to meet 50% of 2022/23 savings requirement by end of September 2021 (Service Directors and Corporate Directors)
