Continuing NHS Health Care Quarter 2 and Quarter 3: July - December 2020

1. INTRODUCTION

This report aims to provide an update on the Q2 and Q3 activity and highlight areas of relevance to the financial and performance management relating to CHC funded care.

2. BACKGROUND

Welsh Government (WG) issued a revised policy document on Continuing NHS Healthcare (CHC) in 2014. The 2014 CHC National Framework included a Performance Framework specific to CHC, with a key requirement that each Health Board receive a formal quarterly CHC Position Report. This was subsequently revised in 2015 to require consideration either at HB Board or at an appropriate Board level Committee if this route allows for more detailed scrutiny and analysis.

As part of the separate CHC Performance Framework required by WG, Boards are required to receive a quarterly report on CHC, and this paper fulfils that requirement. It informs the Board of developments and current issues relevant to CHC, both nationally and locally.

The revised CHC National Framework is currently under review. The consultation process has ended, with national workshops and implementation are delayed due to COVID 19, it anticipated the framework will be published in the late spring of 2021.

A multiagency External Commissioning Group has been set up to ensure care homes are supported by commissioners and receive appropriate WG and local guidance. This group reports to the multiagency Silver Group with escalation to multi-agency Gold and Health Board Gold as required.

3. GOVERNANCE AND RISK ISSUES

Retrospective Claims

The retrospective claims process for the organisation is managed through the Primary, Community and therapies Delivery Group. This was established to consider claims from individuals or their family/representative that they should have been eligible for CHC funding for past care needs but, for a number of reasons, they were either not assessed or not determined eligible, and thus were required to contribute to their package of care. The All Wales Retrospective Review Team, based in Powys Teaching Health Board closed at the end of March 2019, 54 cases were returned to the Health Board for review and completion. These 54 cases had all breached while sitting with Powys, therefore, for WG and HB reporting purposes the Powys breaches will be reported separately to the HB cases where there are no breaches to date. This information is reported via the all Wales CHC Leads Group and to the WG CHC leads.

All 54 Powys cases have now been completed.

There are no HB breaches; all HB cases have been reviewed and completed within the recommended 6-month timeframe. There are currently 12 retrospective claims on the database, work on these claims were reactivated in July 2020 following a delay due to the COVID pandemic.

Health Board Retrospective Claims Activated and Reviewed in Q2 and Q3: July to December 2020

CASES	STATUS	COMMENT
9	Received	Applications received in Q3.
13	Activated	These are cases where all the relevant documentation has been received to allow activation ready for review.
10	Reviewed	These are cases that have been reviewed by the Nurse Assessor. Chronology and Needs Assessment completed. Outcome determined and sent to Solicitor / Claimant.
2	Closed	Cases that have been closed due to either claimant not wanting to pursue or no relevant documentation received within the 5-month timescale.

Judicial Review

The Finance and Performance Group members will be aware of the Judicial Review process that has now ended and concluded that Health Boards are required to increase costs to cover additional elements within the overall care costs. An action plan is being developed by the National Lead for Complex Care and overseen by Chief Executive of NHS Wales and is for discussion at a future all Wales NHS Chief Executives meeting for agreement. On receipt of the agreed implementation plan, local arrangements will be in place to assess the impact and work through the necessary actions. A joint letter from ABMU Lead Executive Director and LA Directors has been sent to providers in June 2018 informing them of the uplift and backdated payment arrangements. Care homes are in the process of being paid the backdated fees for FNC Local Authority funded placements for 2017/18 and 19.

A process regarding backdating deceased self-funders is currently being prepared by WG with input from CHC leads, the agreed process and communication methods should be available in the near future. SBUHB has approximately 350 deceased FNC self-funder cases, the Retrospective Claims Team has the experience to manage these claims in house, however, to date the process has not been agreed by WG. Further meetings are planned with WG to determine the process for deceased claimants.

Pooled Budget

A pooled budget between health and social care for the provision of care to older people residing in care homes needed to be in place by 6th April 2019 as required by the Social Services & Wellbeing (Wales) Act (2016). Following a period of intense work, the multi-agency Pooled Fund for Care Homes Task and Finish Group have agreed a non-risk Sharing Pooled Fund arrangements under a Section 33 Agreement which is being progressed through the governance structures of the respective organisations.

The Regional Partnership Board is responsible for designing and implementing arrangements to ensure the partnership bodies work effectively together. Regional Partnership Boards are expected to develop written agreements concerning any formal partnership arrangements that involve a delegation of functions. Regional Contract work is ongoing which includes consultation with providers and Care Forum Wales. The Regional Partnership Board has been stood down since COVID so work around pooled budget is on hold. A partnership Gold and Silver meeting process is in place to oversee arrangements and actions including externally commissioned care and care homes.

Escalating Concerns

During Quarter 1, one care home in Swansea is being managed under the Escalating Concerns Policy, this home remains under Escalating Concerns during Quarter 2/3 due to continued issues relating to the poor quality and leadership by nursing staff and management. This care home continues to be monitored with an appropriate Corrective Action Plan. One care home in NPT continues to be managed under the Escalating Concerns Policy, this care home has a multiagency Corrective Action Plan in place and is being supported by the HB and NPT LA. The main issues are around poor management, leadership, financial frailty and concerns related to the standards of nursing care. Currently there are 10 individuals placed in the care home, 3 Funded Nursing Care and 7 residential placements. In addition to the one care home in NPT being managed under EC another two care homes in NPT are now being managed under Escalating Concerns

COVID Period

Throughout the COVID period robust monitoring mechanisms have been in place to review the status of residential and nursing care homes. A weekly report is collated by West Glamorgan Partnership. Concerns are escalated via Community Silver and updated via Health Board Gold as appropriate. Partnership working has been key to supporting the care home sector. The establishment of a Regional Externally Commissioned Care Group has been pivotal. This group has representation from all key stakeholders, including, Environmental Health, CIW and Public Health. The group has developed and coordinated all communications with the private sector. In addition, virtual support networks were established to support care home managers and owners. The sector remains at risk from a financial perspective due to the high number of vacancies across the region. The additional funding provided to LA's and the HB by WG has been distributed to the care homes according to their claims and occupancy levels. It is anticipated a further tranche of WG funding will be available to

HB's post March 2021. National meetings are in place to gain an all wales perspective on the distribution of funding following the publication of WG guidance.

Data relating to COVID 19 in care homes: - for the period April 2020-June 2020

Sustainability in the Care Home Sector

Over the last few years the rising number of registrant vacancies experienced in the NHS has been mirrored in the Care Home Sector, this is not an exclusive issue for the SBUHB and is replicated across Wales.

The impact of the paucity of registrants available to the care home sector has meant on occasions that a provider who has previously offered nursing beds has had no choice but to de register those specific categories, over the last two years this has led to a reduction of 57 nursing care beds across the SBHB region.

The bed pool for nursing and duel registered care homes in SBUHB is circa 1,211. The Sector are a fundamental element of the patient flow system and to all intents and purposes they are providing what were previously deemed "long stay elderly care beds" and more usually dementia beds.

With a potential shrinking of nursing bed capacity, the impact on the hospitals from a delay perspective could be significant. In addition, individuals who are deteriorating at home may default into hospital if the capacity in the private sector diminishes.

The issue has been escalated to WG and there are plans to review this at an all Wales level under the Staffing Act. Options for stabilising the situation may mean a different approach for some care homes with regards to registrant numbers and on site availability of registered nurses.

Since COVID the sustainability of the fragility of the private care home sector has become of increasing concern due to the following issues providers are experiencing.

- Providers are finding it increasingly difficult to obtain insurance as some insurance companies will not insure against COVID and those that do have insurance the cost is significantly higher.
- Providers are finding it difficult in some instances to obtain support from their banks and in some cases banks have devalued the care home property significantly based on risk to the business due to the ongoing lack of admissions.
- Another threat to the care home sector's ongoing sustainability is that
 admissions to care homes have reduced significantly, this can be seen by the
 amount of vacant beds across the sector, with patients choosing to receive
 care at home. This has meant an increase in demand for community care
 services.

4. FINANCIAL IMPLICATIONS

The table below shows the CHC expenditure for the Swansea Bay University Health Board (SBU HB) for 2017-18, 2018-19 and 2019-20.

Category	2017-18	2018-19	2019-20		2020-2	21	
	Total	Total	Total	Qtr 1	Qtr 2	Qtr 3	Total
	£m	£m	£m	£m	£m	£m	£m
MHLD	20.70	23.01	24.78	6.61	7.10	7.54	21.25
PCS CHC	15.67	17.36	20.55	5.10	6.10	6.03	17.23
PCS FNC	7.28	7.60	7.61	1.80	2.20	1.99	5.99
Singleton Paediatric	0.70	0.00	4.00	0.2	0.00	0.04	0.70
S	0.76	0.83	1.00	9	0.22	0.21	0.72
					15.6	15.7	
Total	44.41	48.80	53.94	13.80	15.6	7	45.19

The 20-21 quarter 2 and quarter 3 costs for MHLD and PCS CHC and FNC include payments in relation to Financial Support for Adult Care Providers in the Context of Covid-19 as directed by Welsh Government:

MHLD £0.38m PCS CHC / FNC £1.5m

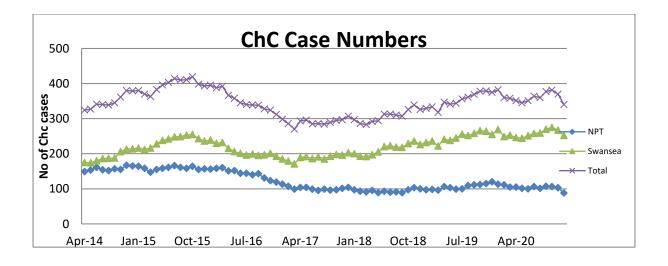

In addition, the increase in expenditure is linked to:

- Increases in the FNC rate PCS set the CHC rate at the FNC contribution plus the cost of a Residential bed in the local area.
- In MH there are increased cases and this includes increased expensive placements from prison.
- In LD there are a number of new expensive transition cases, transition from children's services into LD adult services.

Financial Year	RN component	Continence component	HB component of FNC rate	Social care related to FNC and so funded by LA (0.385 hours)	Total FNC weekly rate (9.24 hours plus continence component)
2014/15	£150.62	£11.00	£161.62	£6.55	£168.17
2015/16	£150.98	£11.00	£161.98	£6.56	£168.54
2016/17	£152.48	£11.00	£163.48	£6.63	£170.11
2017/18	£153.99	£11.29	£165.28	£6.70	£171.98
2018/19	£156.30	£11.57	£167.87	£6.80	£174.67
2019/20	£161.15	£11.82	£172.96	£7.01	£179.97
2020/21	£167.11	£12.02	£179.13	£7.27	£186.40

Primary Care and Community

The P&CS Unit has previously delivered savings through implementing structure and standardised processes. There is a downward trend in number of patients receiving general community CHC packages of care, however, reversed in 2018-19 with the more appropriate placement of patients with EMI needs in the community having an impact to the Health Boards overall CHC budget position.

The graph shows the reduction in case numbers and then the increase from the beginning of 2018. The increase in the number of CHC placements in total is due to increased numbers within the Swansea area; the number of CHC cases within the

Neath Port Talbot area has remained more stable over the same period. The graph also illustrates the decline in CHC cases within the last quarter.

	% of packages at each rate					
Package Cost	2017- 18					
Under 1K	74.1	73.6	73.7	71.7	70.1	68.9
£1-2K	20	19.3	18.7	20	20	20.7
Over £2k	5.9	7.1	7.6	8.2	9.9	10.4

During the same period there has also been an increase in the number of high cost packages of care as a percentage of the total number of packages. These include high cost placements or packages of care for conditions such as MND/MS/Huntington Chorea and complex Mental Health needs.

5. Mental Health and Learning Disability.

There continues to be sustained growth in the CHC (commissioning) spend within the MH and LD Delivery Unit and the planned review programme of rightsizing high cost LD packages has had to be put on hold due to COVID and the reallocation of monies for additional staff. The restrictions on care setting visits have significantly impacted on the ability to undertake full service user's reviews. Virtual reviews have continued where able and have provided some assurances but do difficulties have arisen in accessing a full range of documentation due to the varied record systems in place with each provider.

The service was unable to appoint a contract manager despite interviewing a number of candidates and work is ongoing in regards to securing a contracting and procurement resource.

The MH and LD Delivery Unit currently fund a total of 156 Mental Health and 205 Learning Disability independent care sector placements/packages which consist of 52 Mental Health and 91 Learning Disability CHC funded cases. The remaining being funded under local joint arrangements, including S117 aftercare.

The increase is across both Mental Health and Learning Disability services but demand primarily remains within LD services. The impact of COVID has also seen an increase due to the need for additional and interim support due to the closure of day and respite services.

Review of commissioned packages

Quarter 3 has seen a decrease in the number of QA reviews completed. The ability of the team to undertake reviews was significantly impacted due to sickness and absence

then the onset of COVID-19. However, there have been ongoing virtual and partial reviews undertaken in response to individual safeguarding and service provider concerns, e.g. escalating concerns/performance management during the COVID-19 period.

Continuing Health Care applications

A total of 16 DST's were received for scrutiny within the reporting period which is a notable increase from previous Quarters, it is acknowledged that there a significant demand for Decision Support Tool (DST) assessments to be undertaken within the Swansea area in relation to individuals with a Learning Disability and child transition cases.

Issues Relating to Commissioned Placements

Due to the impact of COVID-19 visits to placements have been suspended with communication being undertaken via telephone/virtual communication methods. As part of the COVID-19 response a partnership group was set up and facilitated to respond to issues affecting externally commissioned placements which has supported communication and actions across organisations and service providers. Effective communication has been maintained with providers during this period.

There have been a number of issues in relation to Learning Disability Supported Living service providers both within NPT and Swansea areas which are currently being managed via Performance Management with the relevant local authority contracting and commissioning leads and the MH & LD Commissioning team. A retendering exercise as part of CCoS supported living provider framework in 2019/20 which saw the transfer of service providers has identified a number of issues for improvement.

The issue of the delegation of health related interventions by social care staff was also raised by a LD supported living provider in relation to the competency assessment of their staff to undertake delegated health related tasks specifically in relation to enteral feeding (PEG/JEJ) and subsequently a task and finish group has been established to look at a HB wide competency and assessment framework in regards to these types of delegated tasks, particularly in relation to third parties. A draft framework is currently in the compilation phase and will be reported back to Corporate Nursing.

6. Children Continuing Care

- Implementation of the Welsh Government Children & Young People's Continuing Care Guidance (2020) will be incorporated into the West Glamorgan Transformation Board. The Head of Nursing and Divisional Manager are members of the work streams which included children with complex needs and transition.
- CCN service now fully digital in line with Mobilisation to support digital documentation in the home for all staff. The service will now monitor standards of record keeping in line with Health Board standards. Evaluation of digitalisation for the service will be undertaken from a user and staff perspective.

- The Health Board have commissioned an external review of all continuing care packages as a result of concerns raised following feedback from families. This will commence in January 2021, terms of reference are agreed and an external review team appointed. In addition, a review of transition arrangements is currently underway.
- During the Covid-19 pandemic all care packages have been maintained, with regular contact with families to ensure safety for both families and staff.
- The CCN team have participated in an all-Wales survey post first wave of Covid, with positive feedback from families who appreciate regular contact and continued care.
- A post joint funded with Ty Hafan is in the process of being established within Children's services. This post compliments the care and support given to families with children requiring continuing care needs

7. TRANSFORMATION OF COMPLEX CARE

Following on from the opportunities outlined in the KPMG work, partners have agreed that work around complex care needs to be developed on a regional basis. West Glamorgan partnership are coordinating a programme to achieve this.

The Transforming Complex Care Programme aims to develop key processes to reset the management of complex care cases, increasing positive citizen experiences, clarity of the administration and supervision of complex cases with one process, policy and standard operating procedures across the region.

The Implementation Group comprising of heads of service, health board leads and the third sector will be holding their first meeting in September to finalise the task and finish groups and develop project plans for each group. The task and finish groups are:

- Overarching Policy and Standard Operating Procedure
- Financial Governance
- Packages in dispute
- Transition from Child to Adult Services
- Joint Commissioning
- Commissioning for Complex Needs
- Safe Accommodation for Children and Young People

This builds on the work undertaken within the Health Board, the updates against the Unit action plans are listed below

MH&LD Improvement Plan

There has been further work been undertaken on the MH CHC Action Plan with action across the following four work streams;

- Analysis of the Problem
- Strengthening Scrutiny and Assurance
- Cost Containment
- Transformation

- a) Transformation Programme for Learning Disability underway based on findings and recommendations of Specialist NHS Adult Learning Disabilities Needs Analysis (2017)
- b) Learning Disability outcome focused assessment programme for 2020/21 to help inform the development of new care models for those identified as having the potential to progress into a more independent support options and identify cost efficiency opportunities. The MH & LD CHC and LTC team are currently undertaking some joint reviews with CCoS around care pathways and efficiency reviews.
- c) Implementation of locality scrutiny panel in additional to the joint complex case panels enabling opportunity for robust scrutiny and consideration of in house and alternate service provision.
- d) Development of new supported living accommodation schemes for MH & LD Complex Needs in collaboration with NPT and CCoS continues to proceed for 2020 although there has been some slippage with timescales due to COVID.
- e) Transformation Programme for Learning Disability underway based on findings and recommendations of Specialist NHS Adult Learning Disabilities Needs Analysis (2017)
- f) Learning Disability outcome focused assessment programme for 2020/21 to help inform the development of new care models for those identified as having the potential to progress into a more independent support options and identify cost efficiency opportunities.
- g) Implementation of locality scrutiny panel in additional to the joint complex case panels enabling opportunity for robust scrutiny and consideration of in house and alternate service provision.
- h) Development of new supported living accommodation schemes for MH & LD Complex Needs in collaboration with NPT and CCoS commencing 2020.

PCS Financial Improvement Plan

As a reaction to sustained growth in the CHC (commissioning) spend the PCS Delivery Unit has reviewed the function of Commissioning Team scrutiny of funding applications.

- Review local scrutiny panels to ensure process followed across NPT and Swansea Panels is consistent.
- CHC funding panel to review all existing CHC placement costs and Home packages to ensure they are right sized to meet needs within 6 months.
- Reorganise CHC team following boundary change.
- Review impacts associated with early supported discharge
- Containment of CHC inflation. There is inflation at 3.5% included in the Unit forecast but the starting point for agreeing uplifts with providers for 2020-21 has been set at 1.89%
- Impact assess proposal for implementing Children's CHC and LAC West Glamorgan Framework.
- Review NHS Wales benchmarking

• Scope benefits from the NPT Digital Hub model links between ACT and Dedicated Care homes for opportunities.

8. RECOMMENDATION

The Committee is asked to:

- Note the All Wales agreement on the FNC and revised local CHC rate for 2020-21.
- Note the Health Board's Retrospective Claims team are able to manage the reimbursement of deceased self-funders in house.
- Note the establishment of the Transforming Complex care work programme.
