Meeting Date	24th May2022	Agenda Item	3.1
Report Title	Integrated Performance Report		
Report Author	Meghann Protheroe, Head of Performance		
Report Sponsor	Darren Griffiths, Director of Finance and Performance		
Presented by	Darren Griffiths, Director of Finance and Performance		
Freedom of Information	Open		
Purpose of the Report	The purpose of this report is to provide an update on the current performance of the Health Board at the end of the most recent reporting period (April 2022) in delivering key local performance measures as well as the national measures outlined in the NHS Wales Delivery Framework.		
Key Issues	<p>The Integrated Performance Report is a routine report that provides an overview of how the Health Board is performing against the National Delivery measures and key local quality and safety measures.</p> <p>The updated National Delivery Framework 2021/22 was published in October 2021, with the updated framework measures being presented at the November 2021 Management Board meeting. The updated Delivery Framework measures are reported in the Integrated Performance Report. The intention of the updated integrated framework measures is to demonstrate how patients and populations are better off through the delivery of services and allowing a different balance across our traditional services.</p> <p>The report format has been altered to align with key areas of focus within the Performance and Finance Committee and are structured as follows;</p> <ol style="list-style-type: none"> 1. Quadrants of Harm single page – overview visual of HB performance 2. Areas under escalation 3. PFC Priorities <ul style="list-style-type: none"> • Urgent emergency care; including ambulance • RTT • Diagnostics • Infection Prevention and Control • Cancer • Follow ups 4. NHS Wales Delivery Framework and ministerial priorities 5. Table of all measures 		

Key high level issues to highlight this month are as follows:

COVID19

- The number of new cases of COVID19 has reduced in April 2022, with 835 new cases being reported in-month.
- The occupancy rate of confirmed COVID patients in critical care beds remains at a low rate with two Covid positive. General bed occupancy for Covid positive patients has seen a significant reduction in occupancy in recent weeks.

Unscheduled Care

- ED attendances have decreased in April 2022 to 10,733 from 11,084 in March 2022.
- The Health Board's performance against the 4-hour measure improved slightly from 71.39% in March 2022 to 72.87% in April 2022.
- The number of patients waiting over 12 hours in Accident and Emergency (A&E) slightly increased from 1,282 in March 2022 to 1,294 in April 2022.
- The number of emergency admissions between November 2021 and February 2022 had seen a consistent reduction, with admissions slightly decreasing in April 2022 (3,847) following a previous increase in figures.

Planned Care

- April 2022 saw a 4% in-month increase in the number of patients waiting over 26 weeks for a new outpatient appointment.
- Additionally, the number of patients waiting over 36 weeks increased by 2.6% to 38,799.
- It is important to note that Referral data has recently been reviewed and updated following the introduction of the new digital dashboard in June 2021. Referral figures for April 2022 saw a reduction (11,544) on those seen in March 2022
- Therapy waiting times continue to improve, there are 679 patients waiting over 14 weeks in April 2022, compared with 820 in March 2022.

Cancer

- March 2022 saw 54% performance against the Single Cancer Pathway measure of patients receiving definitive treatment within 62 days (measure reported a month in arrears).
- The backlog of patients waiting over 63 days has increased slightly in April 2022 to 465 from 435 in March 2022.

	<p><u>Mental Health</u></p> <ul style="list-style-type: none"> - Performance against the Mental Health Measures continues to be maintained. All Welsh Government targets were achieved in March 2022. - Psychological therapies within 26 weeks continue to be maintained at 100%. <p><u>Child and Adolescent Mental Health Services (CAMHS)</u></p> <ul style="list-style-type: none"> - Access times for crisis performance has been maintained at 100% March 2022. - Neurodevelopmental Disorders (NDD) access times within 26 weeks continues to be a challenge, the performance improved to 35% in February 2022 against a target of 80%.

INTEGRATED PERFORMANCE REPORT

1. INTRODUCTION

The purpose of this report is to provide an update on current performance of the Health Board at the end of the most recent reporting window in delivering key performance measures outlined in the NHS Wales Delivery Framework and local quality & safety measures.

2. BACKGROUND

In 2021/22, a Single Outcomes Framework for Health and Social Care was due to be published but was delayed due to the COVID19 pandemic. Welsh Government has confirmed that during 2021/22 the Single Outcomes Framework will be developed for adoption in 2022/23.

The NHS Wales Delivery Framework sets out measures under the quadruple aims which the performance of the Health Board is measured. The aims within the NHS Delivery Framework are:

- **Quadruple Aim 1:** People in Wales have improved health and well-being with better prevention and self-management
- **Quadruple Aim 2:** People in Wales have better quality and more accessible health and social care services, enabled by digital and supported by engagement
- **Quadruple Aim 3:** The health and social care workforce in Wales is motivated and sustainable
- **Quadruple Aim 4:** Wales has a higher value health and social care system that has demonstrated rapid improvement and innovation, enabled by data and focused on outcomes

The Health Board's performance reports have traditionally been structured according to the aims within the NHS Delivery Framework however, the focus for NHS Wales reporting has shifted to harm management as a consequence of the COVID-19 pandemic. In order to improve the Health Board's visibility of measuring and managing harm, the structure of this report has been aligned with the four quadrants of harm as set out in the NHS Wales COVID-19 Operating Framework. The harm quadrants are illustrated in the following diagram.

Harm from Covid itself	Harm from overwhelmed NHS and social care system
Harm from reduction in non-Covid activity	Harm from wider societal actions/lockdown

Appendix 1 provides an overview of the Health Board's latest performance against the Delivery Framework measures along with key local quality and safety

measures. A number of local COVID-19 specific measures have been included in this iteration of the performance report.

The traditional format for the report includes identifying actions where performance is not compliant with national or local targets as well as highlighting both short term and long terms risks to delivery. However, due to the operational pressures within the Health Board relating to the COVID-19 pandemic, it was agreed that the narrative update would be omitted from this performance report until operational pressures significantly ease. Despite a reduction in the narrative contained within this report, considerable work has been undertaken to include additional measures that aid in describing how the healthcare systems has changed as a result of the pandemic.

3. GOVERNANCE AND RISK ISSUES

Appendix 1 of this report provides an overview of how the Health Board is performing against the National Delivery measures and key local measures. Mitigating actions are listed where performance is not compliant with national or local targets as well as highlighting both short term and long terms risks to delivery.

4. FINANCIAL IMPLICATIONS

At this stage in the financial year there are no direct impacts on the Health Board's financial bottom line resulting from the performance reported herein.

5. RECOMMENDATION:

Members are asked to:

- **NOTE** the Health Board performance against key measures and targets.
- **NOTE** the request for updated recovery trajectories from both Emergency Unscheduled care and Cancer Services in line with the Escalation framework.
- **NOTE** the inclusion of the submitted recovery trajectories as part of the Welsh Government MDS
- **NOTE** the actions being taken to improve performance: -
 - Focussed validation work is currently taking place looking at the number of clinics which have not been 'cashed up' within the system, along with reviewing the capacity for increased digital working.
 - Demand and Capacity work is currently being completed at present to incorporate the schemes identified against the £21.6 million of recovery funding allocated
 - Updated Cancer Backlog trajectories have been developed and are currently being approved - these will be shared in June 2022
 - A gap analysis exercise is currently being undertaken to determine the additional capacity required to ensure all patients waiting >104 weeks for treatment are removed within the WG timescales
 - Work is ongoing on the development of Enfys ward at Morriston Hospital to enable establishment of Ambulatory Emergency Care Centre by September 2022
 - Work is ongoing to commission additional theatre sessions in the new financial year (2022-23)

- Both UEC and cancer performance remain under escalation as part of the Health Board's performance escalation framework. The CEO is currently in the process of reviewing the effectiveness of such escalation with the DOF and DCEO.
- A revised version of the current Performance Management Framework has been developed and is currently undergoing internal scrutiny – the final document will be shared in June 2022

Governance and Assurance		
Link to Enabling Objectives (please choose)	Supporting better health and wellbeing by actively promoting and empowering people to live well in resilient communities	
	Partnerships for Improving Health and Wellbeing	<input checked="" type="checkbox"/>

Quality, Safety and Patient Experience		
<p>The performance report outlines performance over the domains of quality and safety and patient experience, and outlines areas and actions for improvement. Quality, safety and patient experience are central principles underpinning the National Delivery Framework and this report is aligned to the domains within that framework.</p> <p>There are no directly related Equality and Diversity implications as a result of this report.</p>		
Financial Implications		
At this stage in the financial year there are no direct impacts on the Health Board's financial bottom line resulting from the performance reported herein.		
Legal Implications (including equality and diversity assessment)		
A number of indicators monitor progress in relation to legislation, such as the Mental Health Measure.		
Staffing Implications		

A number of indicators monitor progress in relation to Workforce, such as Sickness and Personal Development Review rates. Specific issues relating to staffing are also addressed individually in this report.

Long Term Implications (including the impact of the Well-being of Future Generations (Wales) Act 2015)

The '5 Ways of Working' are demonstrated in the report as follows:

- **Long term** – Actions within this report are both long and short term in order to balance the immediate service issues with long term objectives.
- **Prevention** – the NHS Wales Delivery framework provides a measureable mechanism to evidence how the NHS is positively influencing the health and well-being of the citizens of Wales with a particular focus upon maximising people's physical and mental well-being.
- **Integration** – this integrated performance report brings together key performance measures across the seven domains of the NHS Wales Delivery Framework, which identify the priority areas that patients, clinicians and stakeholders wanted the NHS to be measured against. The framework covers a wide spectrum of measures that are aligned with the Well-being of Future Generations (Wales) Act 2015.
- **Collaboration** – in order to manage performance, the Corporate Functions within the Health Board liaise with leads from the Service Groups as well as key individuals from partner organisations including the Local Authorities, Welsh Ambulance Services Trust, Public Health Wales and external Health Boards.
- **Involvement** – Corporate and Service Group leads are key in identifying performance issues and identifying actions to take forward.

Report History	The last iteration of the Integrated Performance Report was presented to Performance & Finance Committee in April 2022. This is a routine monthly report.

6. APPENDIX 1: INTEGRATED PERFORMANCE DASHBOARD	65-69

1. QUADRANTS OF HARM SUMMARY

The following is a summary of all the key performance indicators included in this report.

NB- RAG status is against national or local target

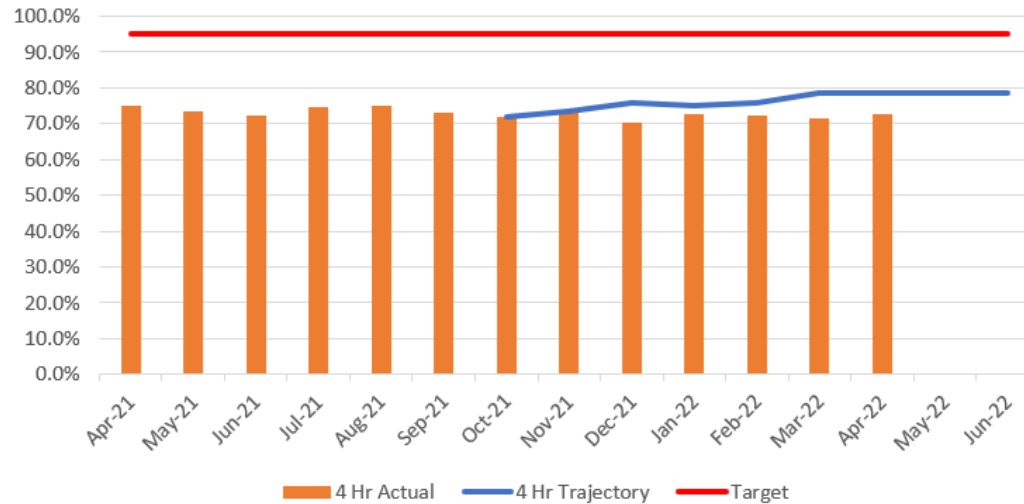

** Data not available

*RAG status based on in-month movement in the absence of local profiles

2. ESCALATED SERVICE UPDATE TRAJECTORIES

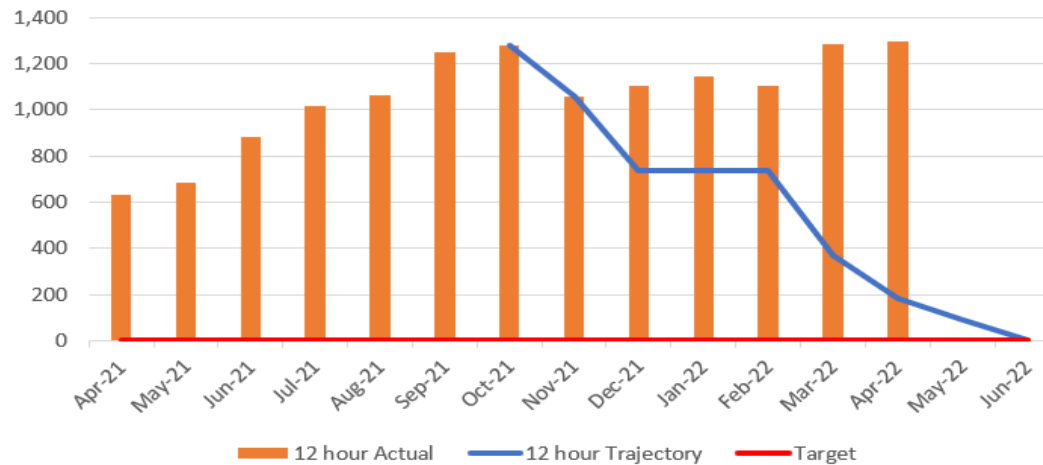

UNSCHEDULED CARE – PERFORMANCE ESCALATION UPDATES

1. Submitted recover trajectory for A&E 4hr performance

1. Performance against the 4hr target in April 2022 has continued to remain slightly below the outlined recovery trajectories at 73%, which is 6% below the performance target for April 2022 is 79%.

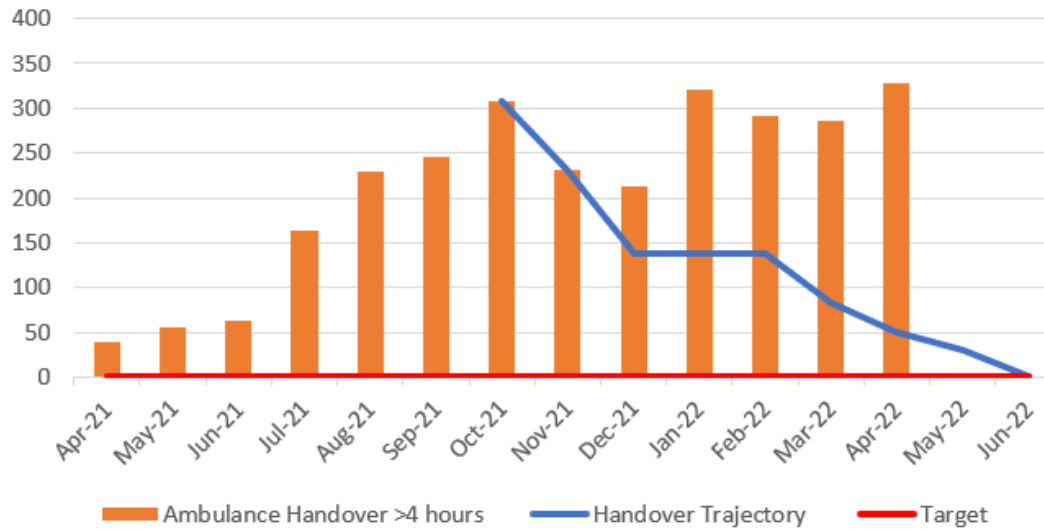

2. Submitted recovery trajectory for A&E 12-hour performance

2. The 12-hour performance trajectory outlines a consistent reduction in patients waiting over 12 hours in ED. However the reported Performance continues to be significantly above the figures projected. There were 1,294 patients waiting over 12 hours in ED in April 2022, which is marginally higher than figures seen in March 2022 (1,282).

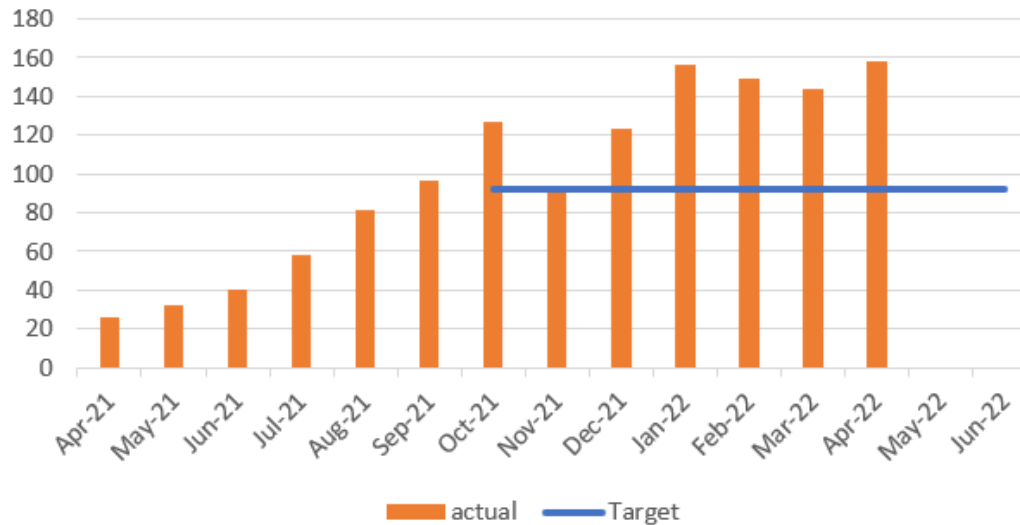

UNSCHEDULED CARE – PERFORMANCE ESCALATION UPDATES

3. Ambulance Handover over 4 hours

3. The Ambulance handover rate over 4 hours has remained above the projected recovery trajectory for April 2022, with a further declines in performance to 328 from 286 in March 2022.

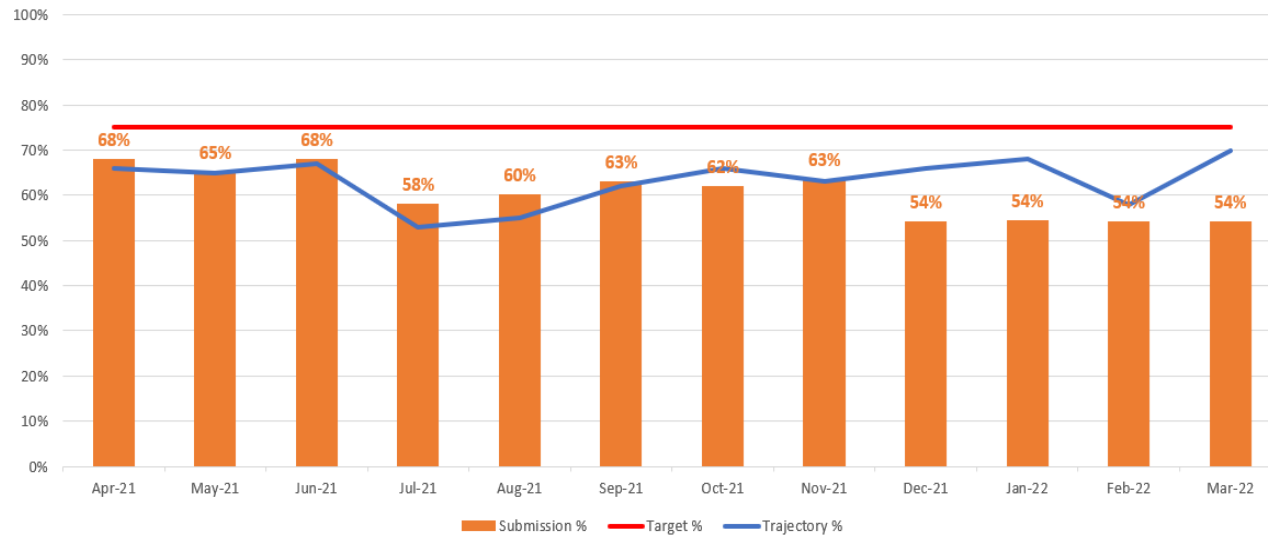

4. Average Ambulance Handover Rate

4. The average ambulance handover rate has been steadily improving in recent months, however April 2022 saw an increase in average handover rate figures to 158 against the submitted recovery target of 92.

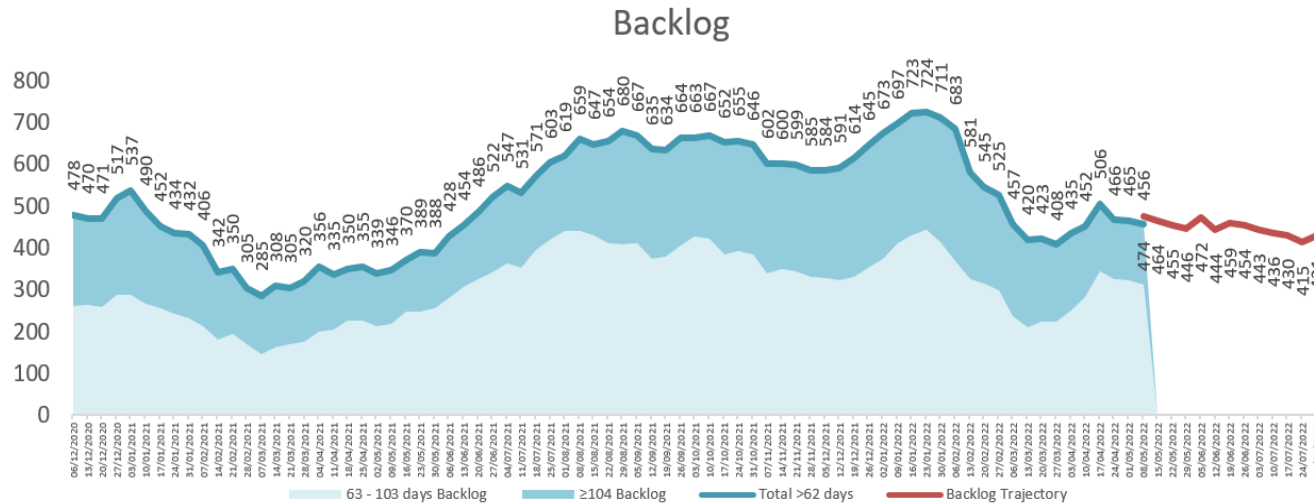

CANCER SERVICES – PERFORMANCE ESCALATION UPDATES

1. SCP performance trajectory

1. SCP performance in March 2022 was reported as 54% which is tracking below the outlined trajectory of 70%. April 2022 performance is still in draft format, however current projections suggest performance will be below the recovery trajectory.

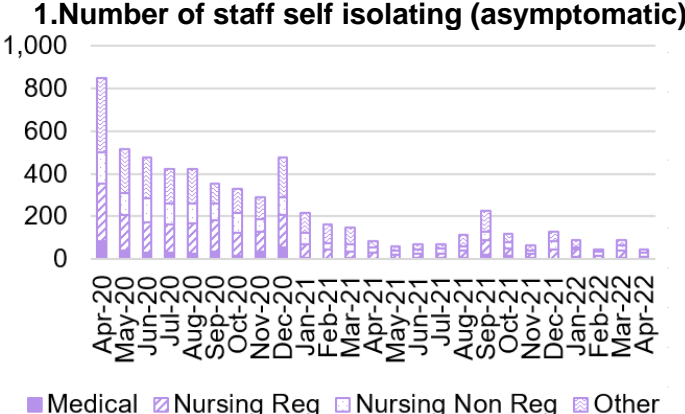

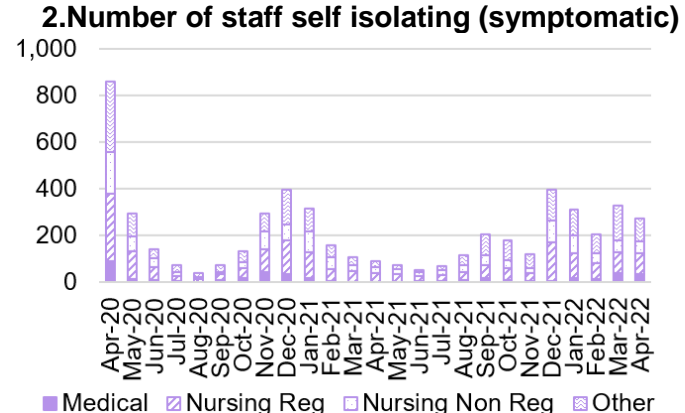

2. Proposed backlog improvements to support SCP performance

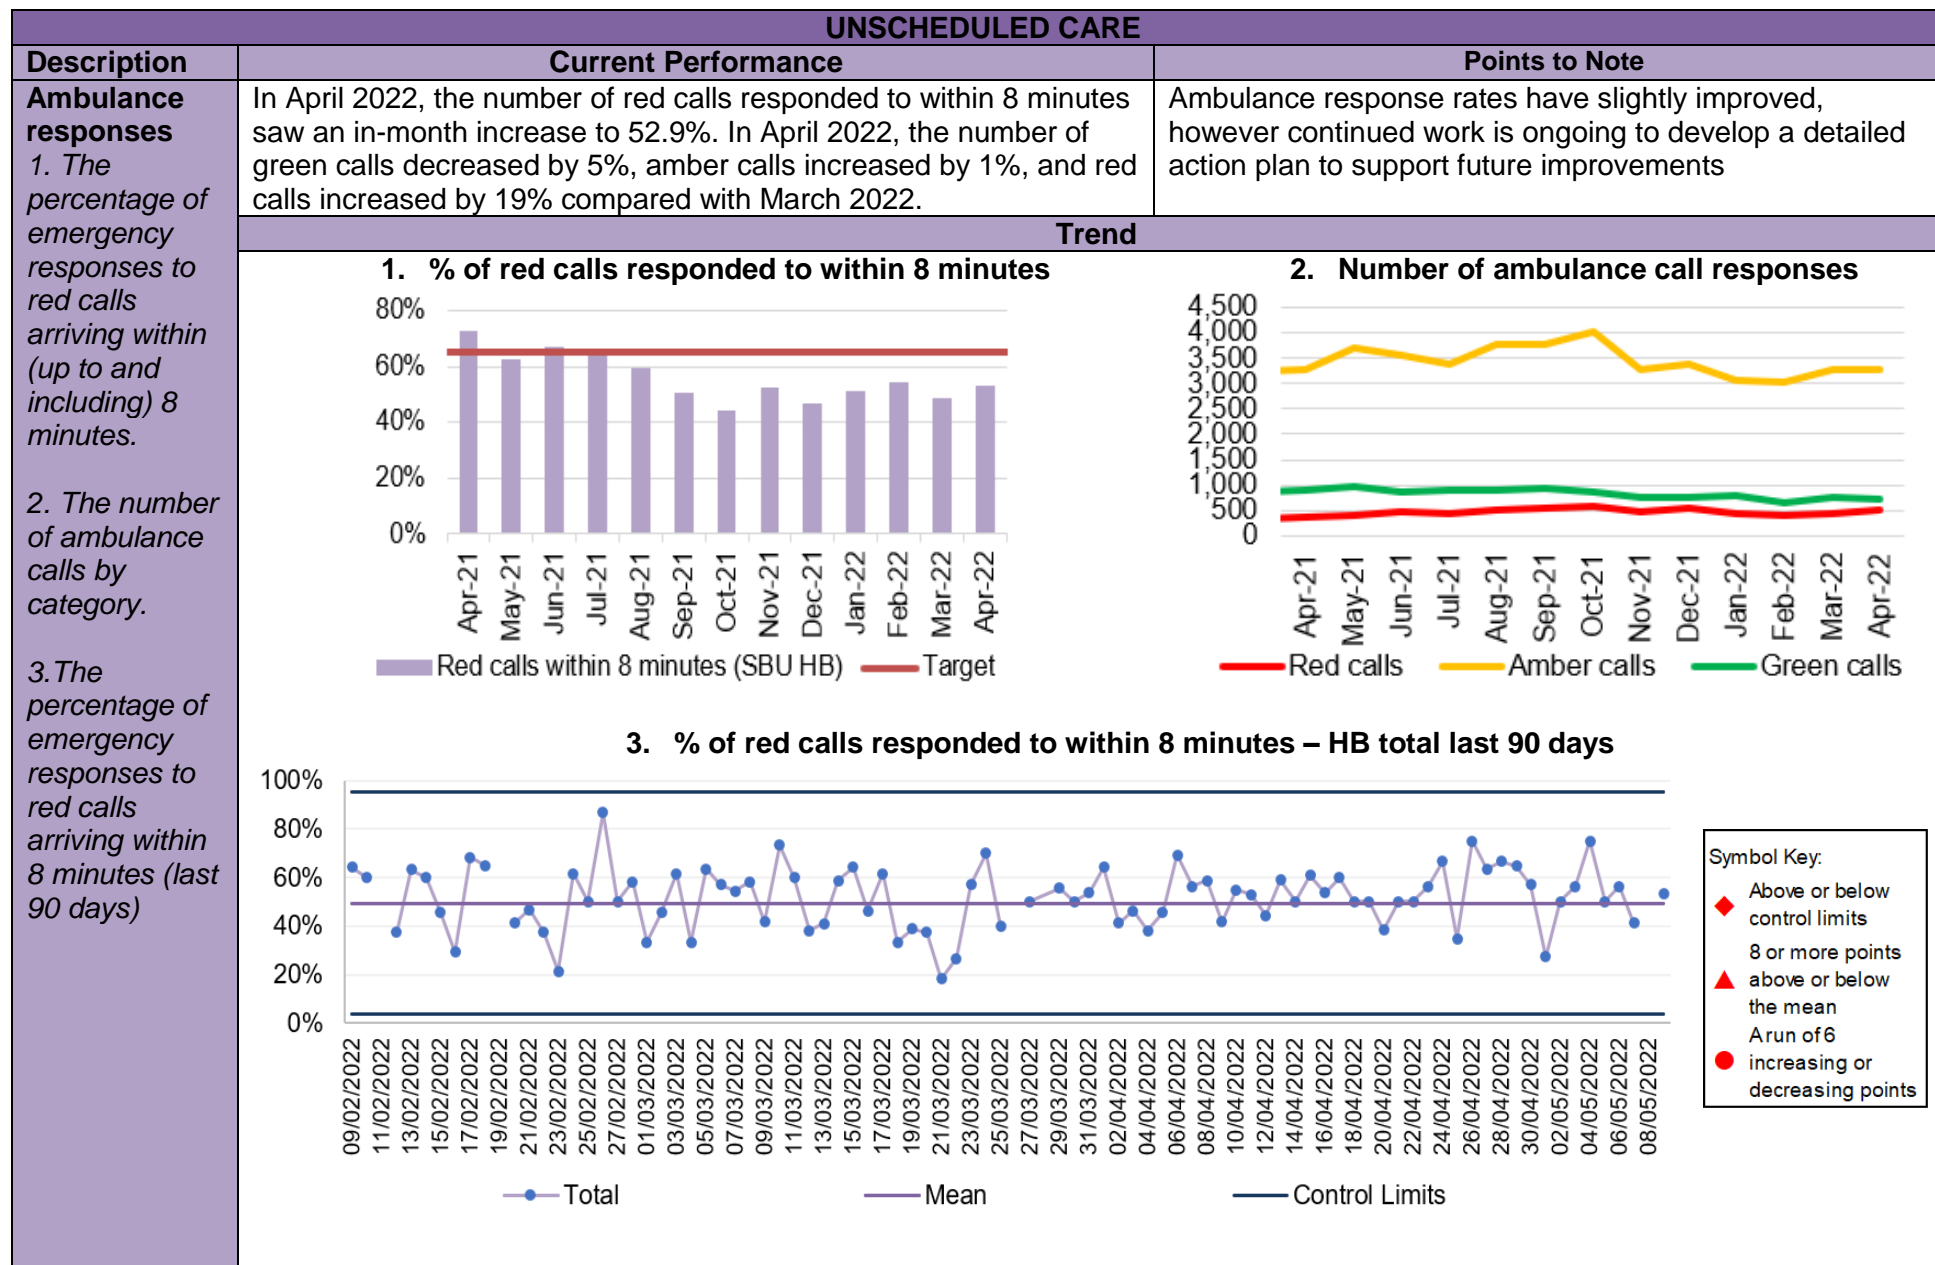

2. Shows the weekly breakdown of the backlog reduction against the proposed trajectories. The backlog figure as at 11/05/22 was 456. Updated backlog trajectories are currently in the approval process.

3. UPDATES ON KEY SERVICE AREAS

COVID Data		
Description	Current Performance	Trend
1. Number of new COVID19 cases in Swansea Bay population area	<p>Number of new COVID cases</p> <p>In April 2022, there were an additional 835 positive cases recorded bringing the cumulative total to 116,747 in Swansea Bay since March 2020.</p> <p>A significant reduction has been seen in the number of positive cases reported since December 2021.</p>	<p>Number of new COVID19 cases for Swansea Bay population</p> <p>■ New positive COVID19 cases</p>
2. Number of staff referred for Antigen testing	<p>Staff referred for Antigen testing</p> <p>The cumulative number of staff referred for COVID testing between March 2020 and April 2022 is 17,158 of which 18% have been positive (Cumulative total).</p>	<p>Outcome of staff referred for Antigen testing</p> <p>■ Positive ■ Negative ■ In Progress ■ Unknown/blank</p>

COVID RELATED STAFF ABSENCE																																																																																																
Description	Current Performance			Trend																																																																																												
Staff absence due to COVID19 1. Number of staff self-isolating (asymptomatic) 2. Number of staff self isolating (symptomatic)	The following data is based on the mid-month position and broken down into the categories requested by Welsh Government. 1. & 2. Number of staff self-isolating (asymptomatic and symptomatic) Between March 2022 and April 2022, the number of staff self-isolating (asymptomatic) reduced from 87 to 42 and the number of staff self-isolating (symptomatic) reduced from 326 to 270. In April 2022, the Nursing non-registered staff group had the largest number of self-isolating staff who are asymptomatic and the "other" staff group were the largest group of symptomatic staff who were isolating.			1. PLANNED CARE		
Description	Current Performance	Points to Note
Referrals and shape of the waiting list 1. GP Referrals <i>The number of Stage 1 additions per week</i> 2. Stage 1 additions <i>The number of new patients that have been added to the outpatient waiting list</i> 3. Size of the waiting list <i>Total number of patients on the waiting list by stage as at December 2019</i> 4. Size of the waiting list <i>Total number of patients on the waiting list by stage as at March 2022</i>	<p>April 2022 has seen a reduction in referral figures. Referral data has recently been reviewed and updated following the introduction of the new digital dashboard in June 2021, data selection was updated as appropriate. Referral rates have continued to rise slowly since December 2021, rising to 11,544 in March 2022. Chart 4 shows the shape of the current waiting list. Chart 3 shows the waiting list as at December 2019 as this reflects a typical monthly snapshot of the waiting list prior to the COVID19 pandemic.</p>	<p>The number of referrals received has seen a reduction this month, however a detailed analysis exercise is being undertaken to understand the drivers behind increased rates</p>
	Trend	
	<p>1. Number of GP referrals received by SBU Health Board</p>  <p>■ Routine ■ Urgent</p>	<p>2. Number of stage 1 additions per week</p>  <p>— Additions to outpatients (stage 1) waiting list</p>
	<p>3. Total size of the waiting list and movement (December 2019)</p>  <p>■ STAGE 1 ■ STAGE 2 ■ STAGE 3 ■ STAGE 4 ■ STAGE 5</p>	<p>4. Total size of the waiting list and movement (April 2022)</p>  <p>■ STAGE 1 ■ STAGE 2 ■ STAGE 3 ■ STAGE 4 ■ STAGE 5</p>

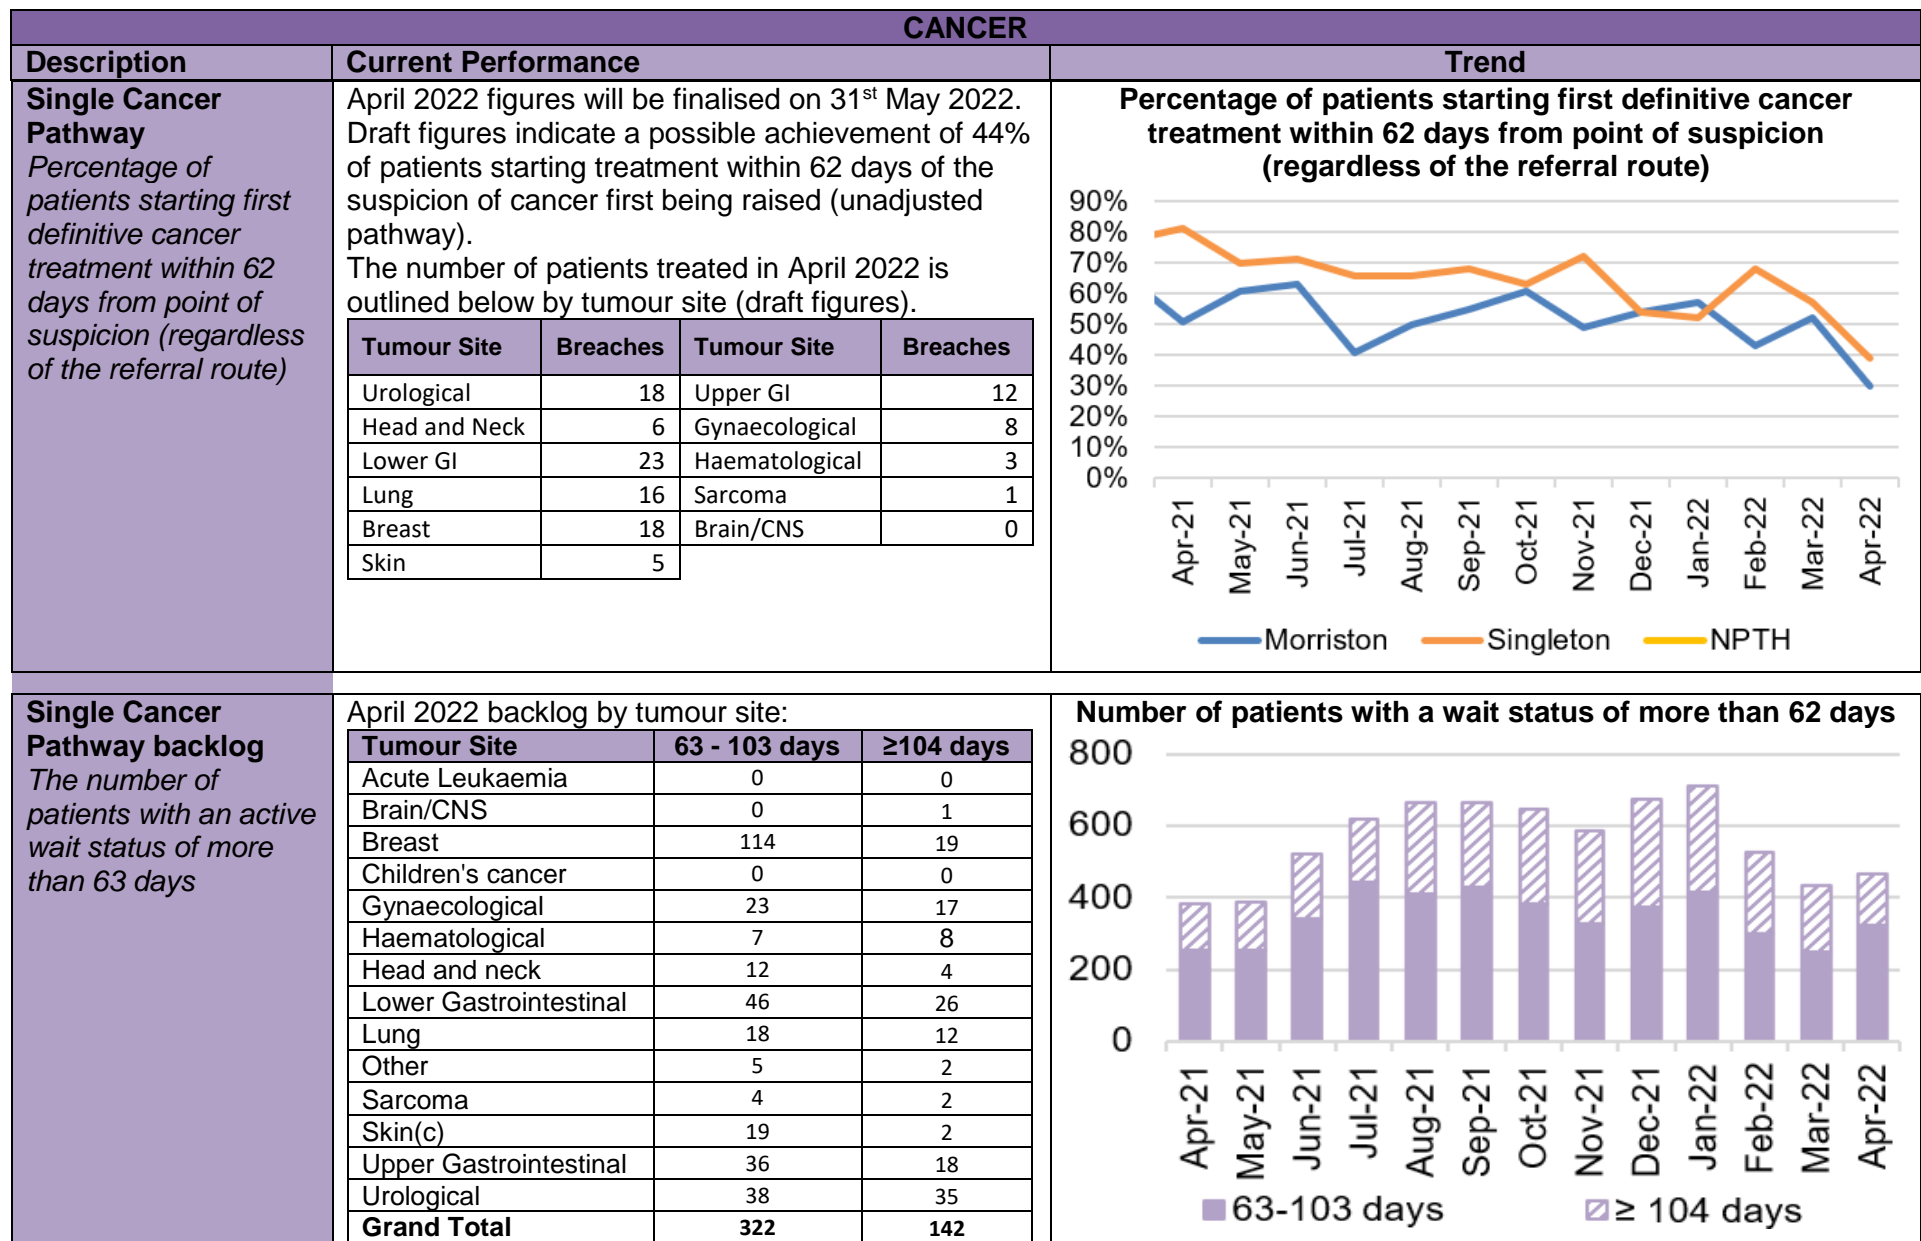

PLANNED CARE		
Description	Current Performance	Points to Note
Outpatient waiting times 1. Number of patients waiting more than 26 weeks for an outpatient appointment (stage 1)- Health Board Total 2. Number of patients waiting more than 26 weeks for an outpatient appointment (stage 1)- Hospital Level 3. Patients waiting over 26 weeks for an outpatient appointment by specialty 4. Outpatient activity undertaken	<p>The number of patients waiting over 26 weeks for a first outpatient appointment is still a challenge. April 2022 saw an in-month increase of 4% in the number of patients waiting over 26 weeks for an outpatient appointment. The number of breaches increased from 24,728 in March 2022 to 25,601 in April 2022. Ophthalmology has the largest proportion of patients waiting over 26 weeks for an outpatient appointment, closely followed by Orthopaedics and ENT. Chart 4 shows that the number of attendances has remained steady in recent months despite the impact of the recent Covid wave.</p>	<p>Detailed demand and capacity work is currently underway to support the reduction of Stage 1 patients waiting for an outpatient appointment.</p>
	Trend <div> <div> 1. Number of stage 1 over 26 weeks- HB total  <p>■ Outpatients > 26 wks (SB UHB)</p> </div> <div> 2. Description	Current Performance	Trend
Workforce Spend – workforce expenditure profile	<ul style="list-style-type: none"> The pay budgets are underspent by £0.281m at the end of April. Funding has been allocated to : <ul style="list-style-type: none"> support additional transition and recovery costs associated with COVID, Variable pay remains high, this reflects operational pressures, increasing sickness levels and recovery actions and will be monitored as the months progress. 	<p style="text-align: center;">Trend</p> <p style="text-align: center;">Variable Pay Expenditure</p> 
PSPP – pay 95% of Non-NHS invoices within 30 days of receipt of goods or valid invoice	<ul style="list-style-type: none"> The Health Board failed to deliver this target in 2021/22, but significant improvement was made in the latter half of the year. In the first month of the new financial year the Health Board performance was just below target at 94.75% payment of non NHS invoices within 30 days of receipt of goods or valid invoice. . 	<p style="text-align: center;">Percentage of non-NHS invoices paid within 30 days of receipt of goods or valid invoice</p> <p style="text-align: center;">PSPP Target</p> 

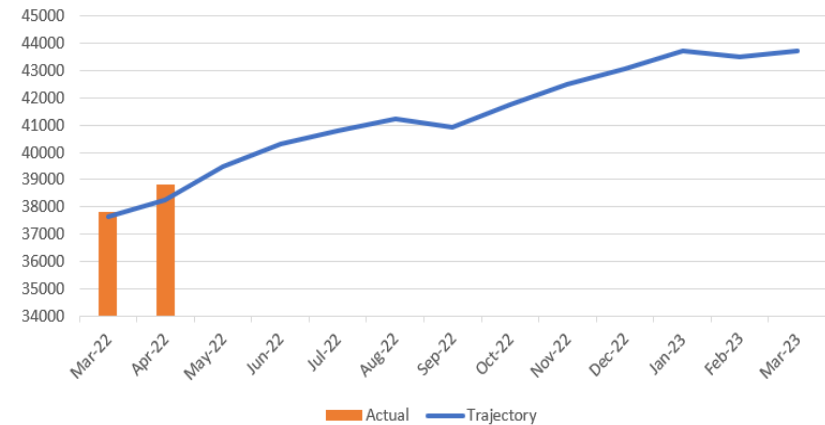

MINISTERIAL PRIORITY MEASURES

Number of patients waiting more than 104 weeks for treatment

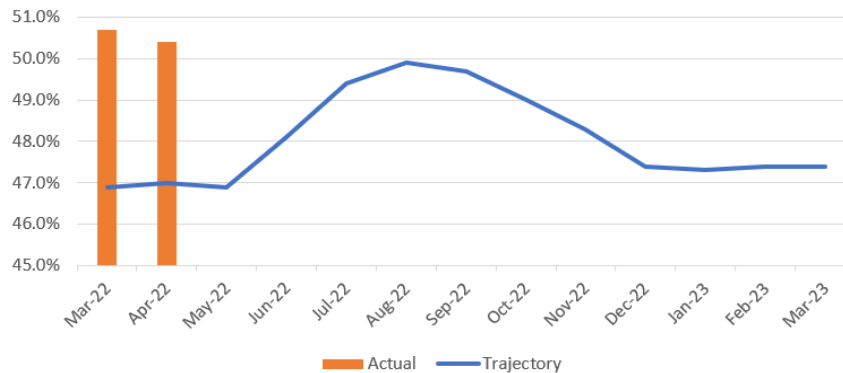

Target: Improvement trajectory towards a national target of zero by 2024

Number of patients waiting more than 36 weeks for treatment

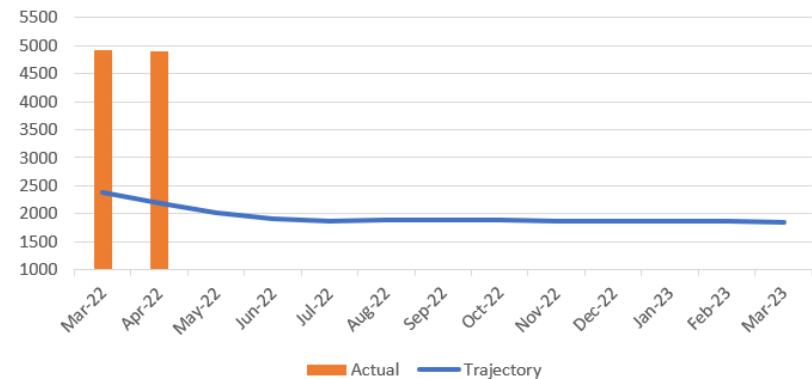

Target: Improvement trajectory towards a national target of zero by 2026

Percentage of patients waiting less than 26 weeks for treatment

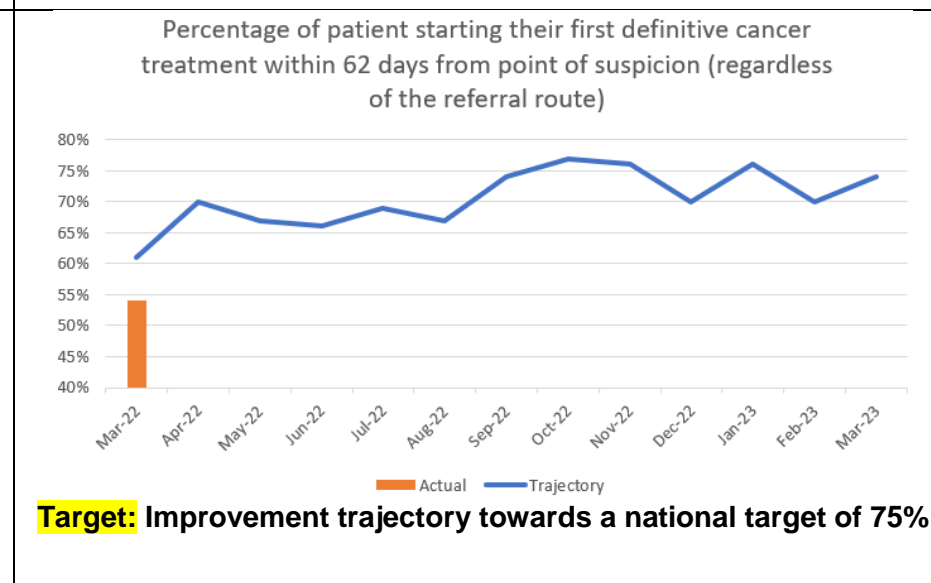

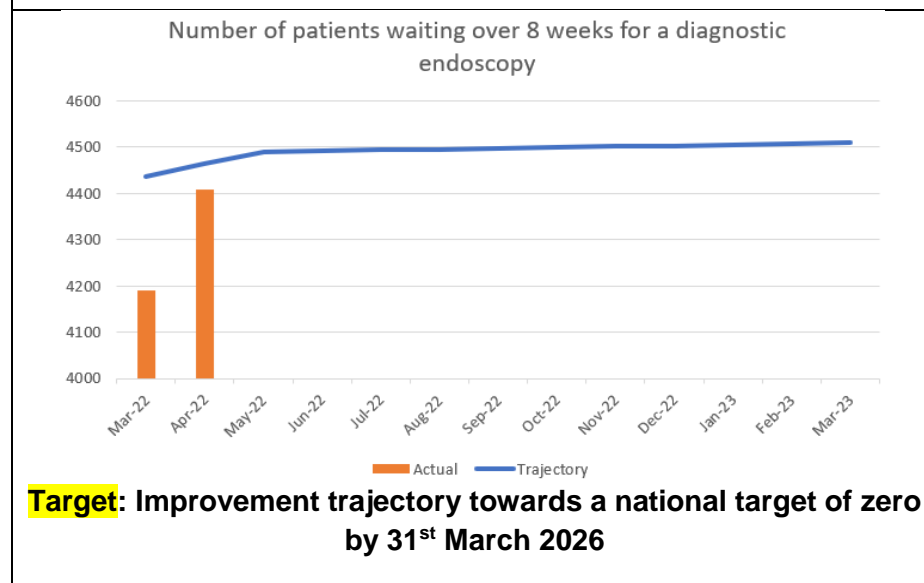

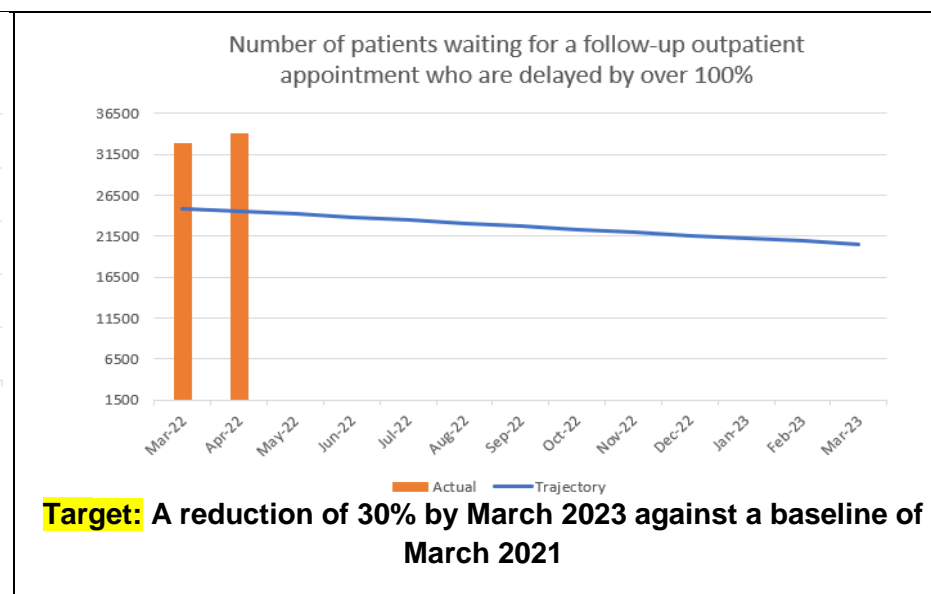

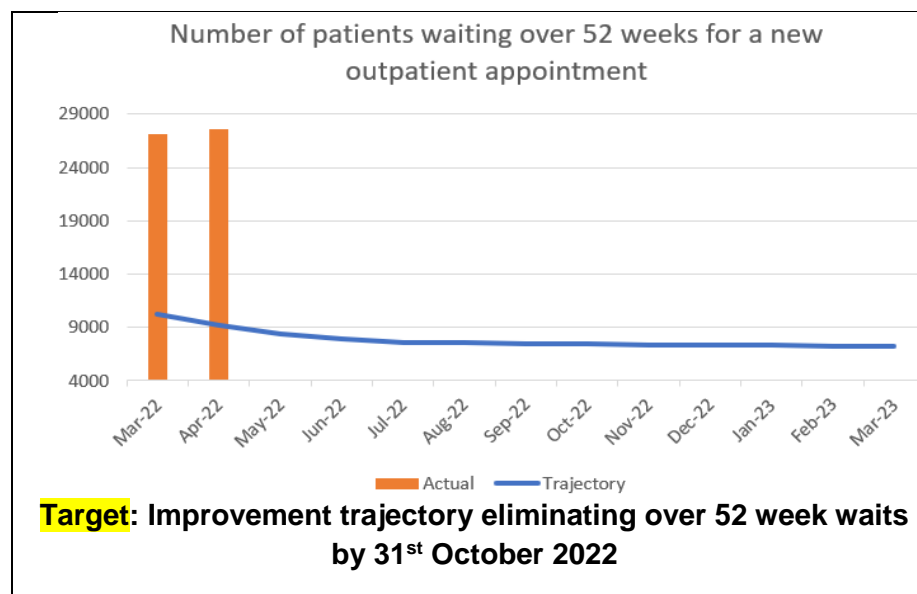

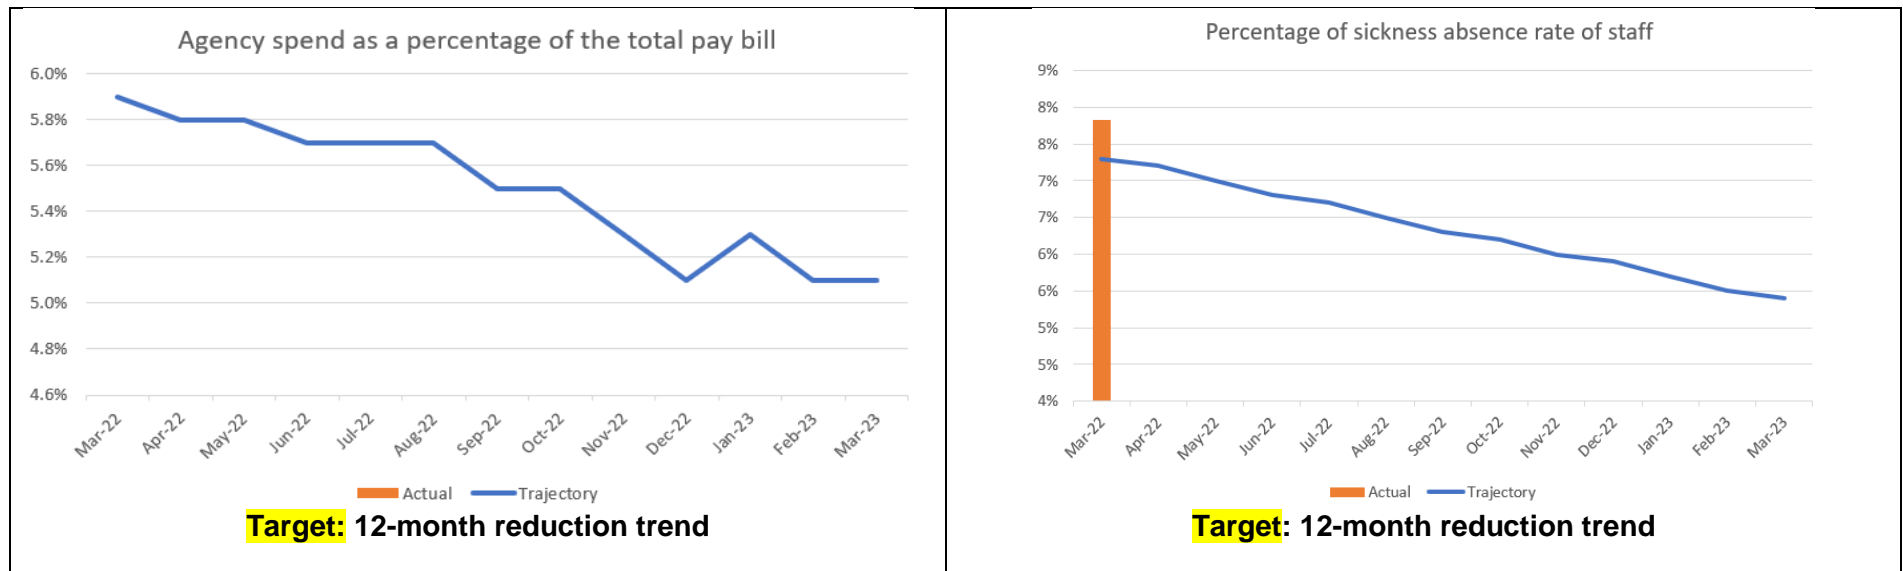

Target: Improvement trajectory towards a national target of 95% by 2024

Number of patients waiting over 104 weeks for a new outpatient appointment

Target: Improvement trajectory towards eliminating over 104 week waits by 31st July 2022

5. TABLE OF ALL MEASURES

HARM FROM COVID ITSELF

Chart 1 Number of new COVID19 cases

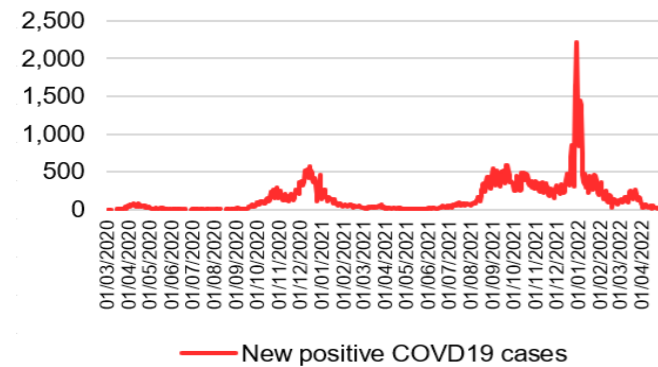

Chart 2: Number of new COVID19 cases (cumulative)

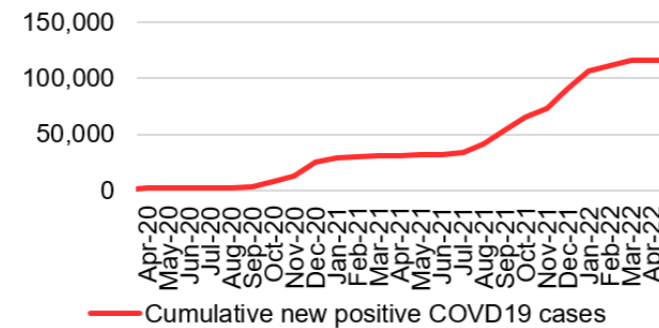

Chart 3: Number of COVID19 tests completed and positivity rate

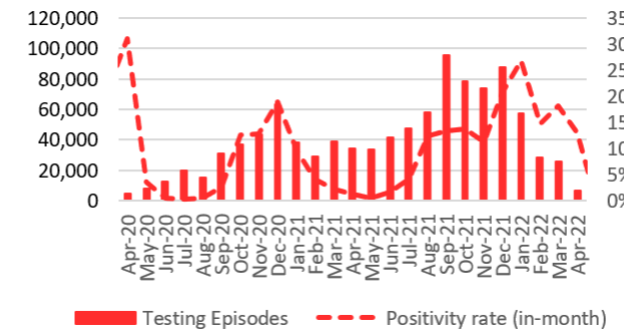

Chart 4: Number of staff referred for Antigen testing

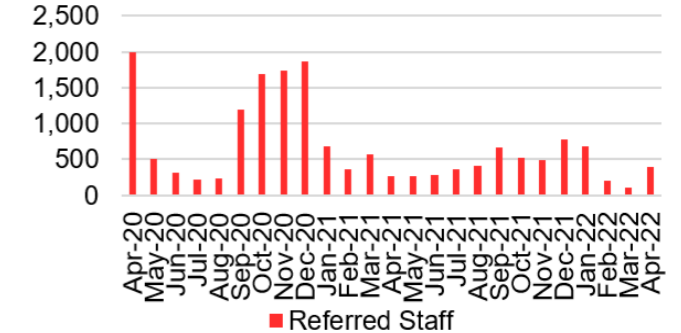

Chart 5: Outcome of staff COVID19/ antigen tests

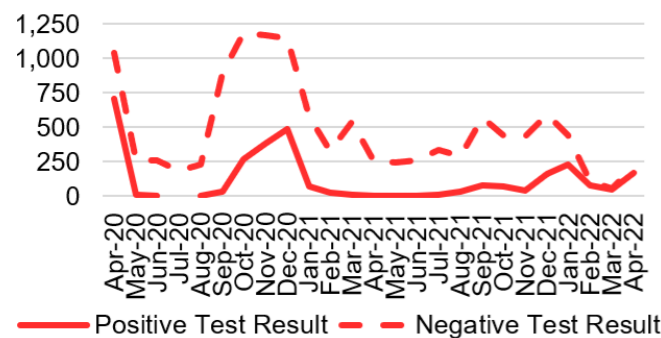

Chart 6: Number of COVID19 related incidents

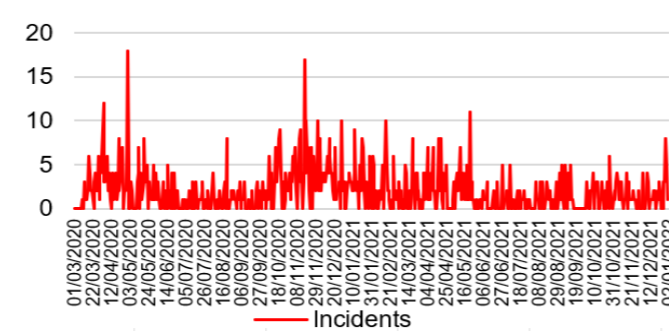

Chart 7: Number of COVID19 related serious incidents

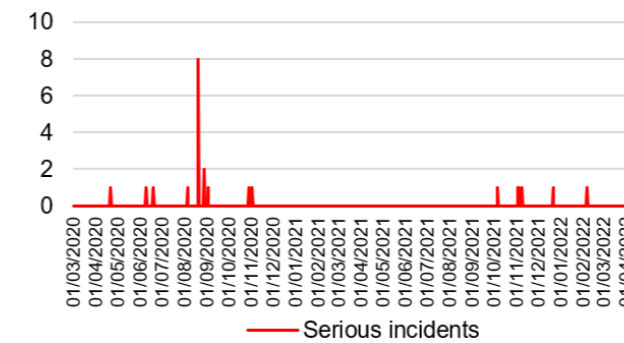

Chart 8: Number of COVID19 related complaints

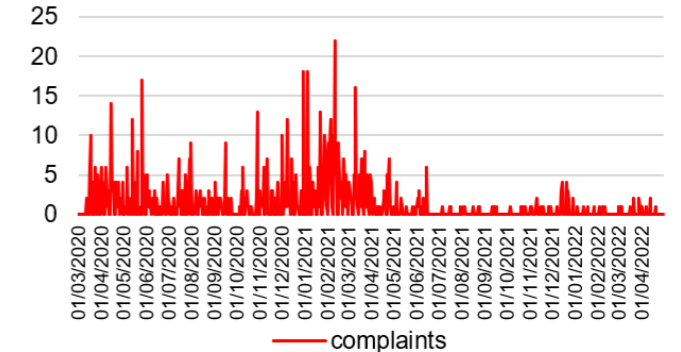

Chart 9: Number of COVID19 related risks

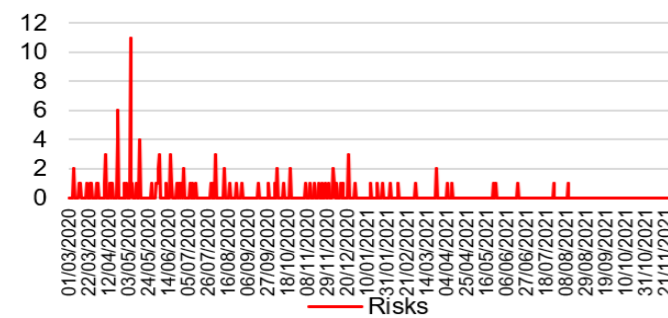

Chart 10: Number of staff self-isolating (asymptomatic)

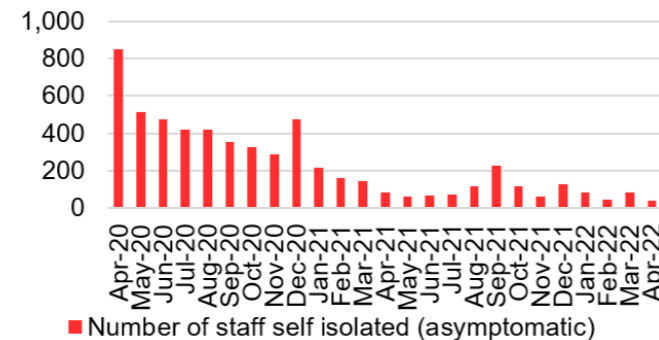

Chart 11: Number of staff self isolating (symptomatic)

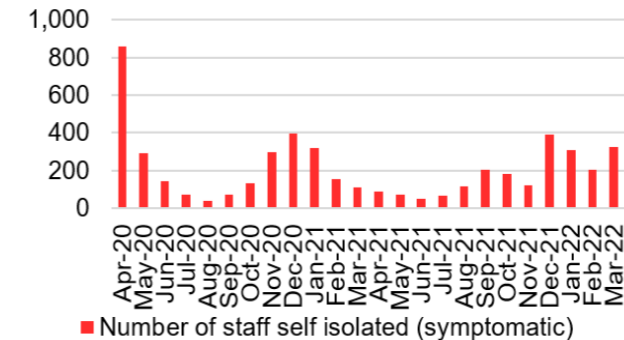

Chart 12: % staff sickness

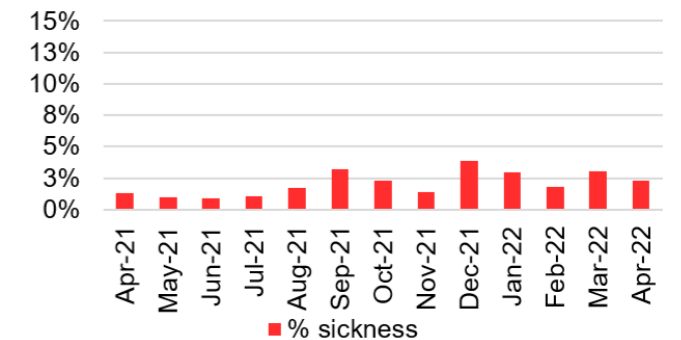

Chart 13: Bed Occupancy for suspected and confirmed COVID19 cases

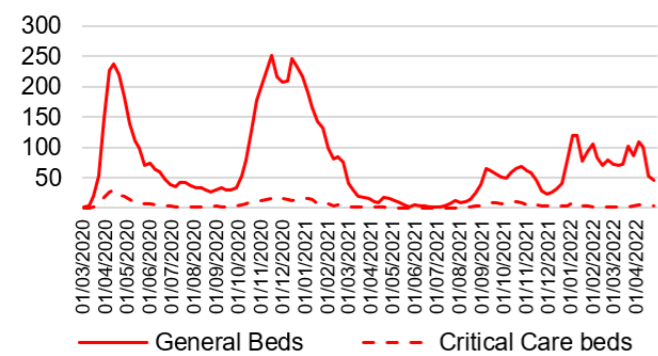

Chart 14: Number of hospital deaths with any mention of COVID19

Chart 15: Number of weekly registered deaths with any mention of COVID19 (ONS data)

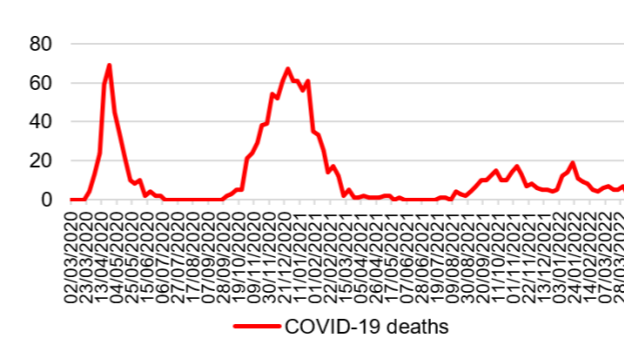

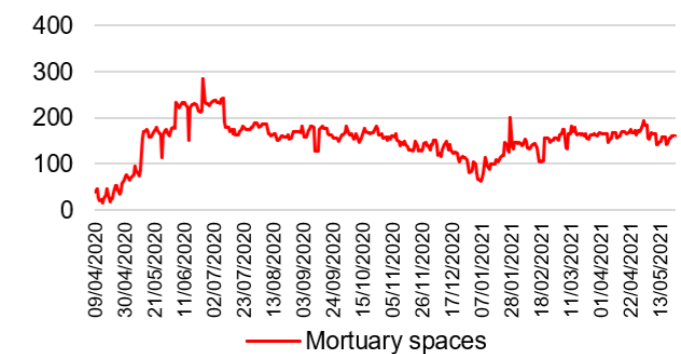

Chart 16: Number of mortuary spaces

HARM FROM OVERWHELMED NHS AND SOCIAL CARE SYSTEM

Unscheduled Care- Overview

Chart 1: GP Out of Hours/ 111

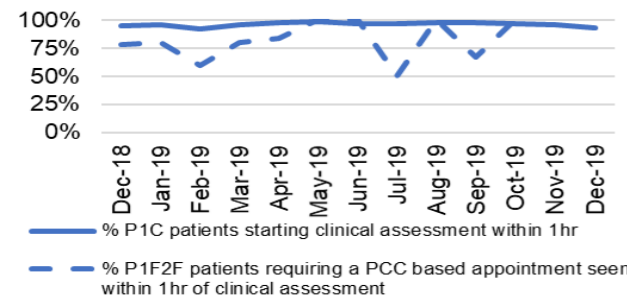

Chart 2: % red calls responded to within 8 minutes

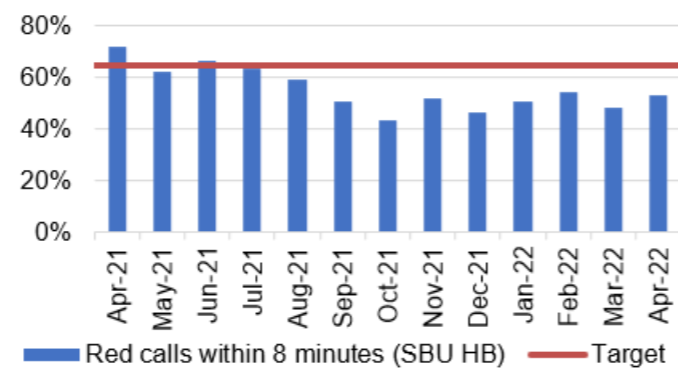

Chart 3: Number of ambulance handovers over 1 hour

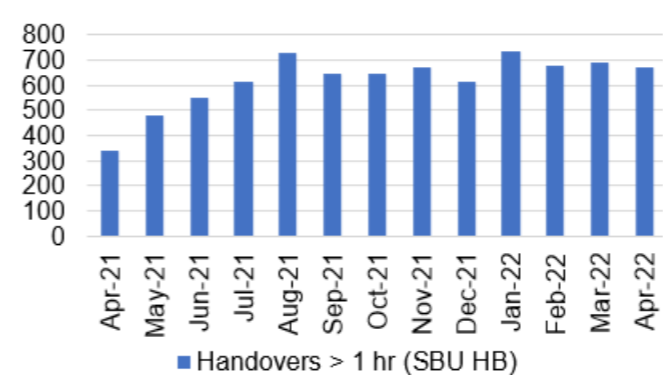

Chart 4: Lost hours- notification to ambulance handover over 15 minutes

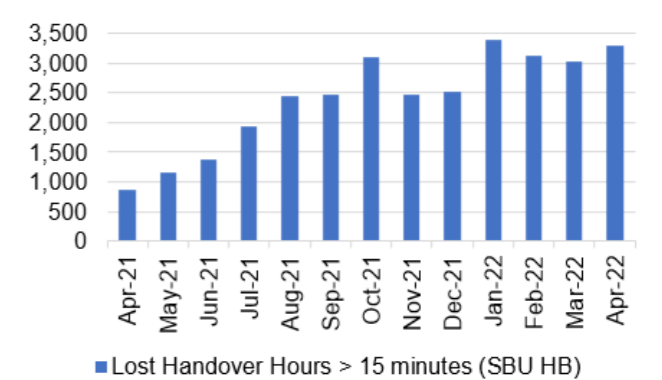

Chart 5: A&E Attendances

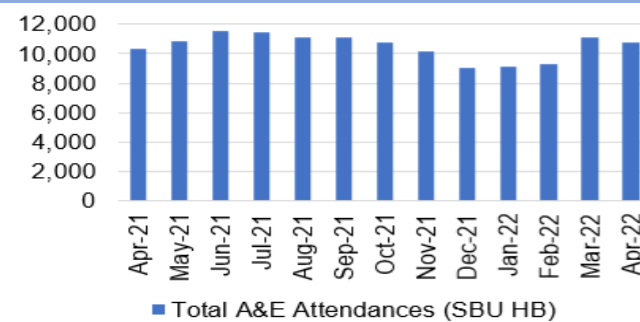

Chart 6: % patients who spend less than 4 hours in A&E

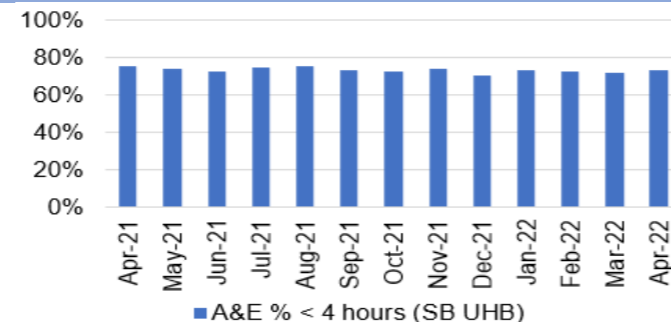

Chart 7: Number of patients waiting over 12 hours in A&E

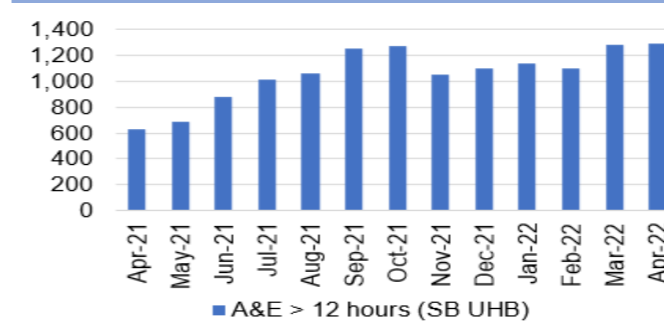

Chart 8: Number of emergency admissions

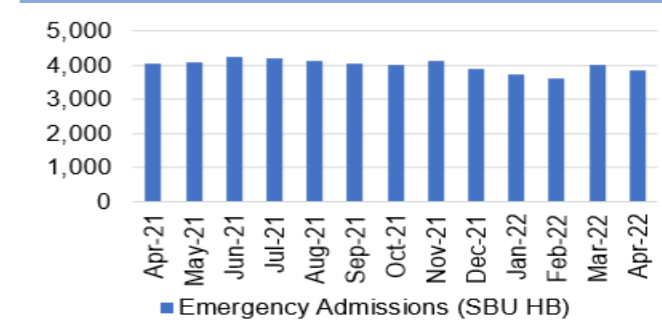

Chart 9: Elective procedures cancelled due to lack of beds

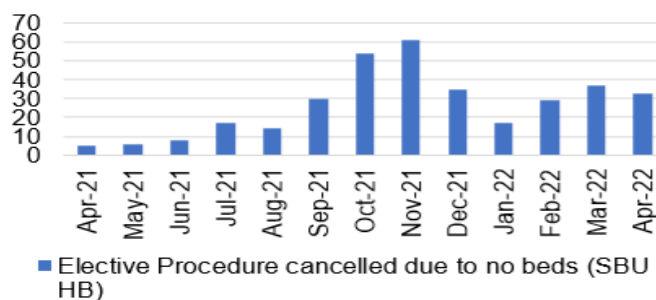

Chart 10: Number of clinically optimised patients

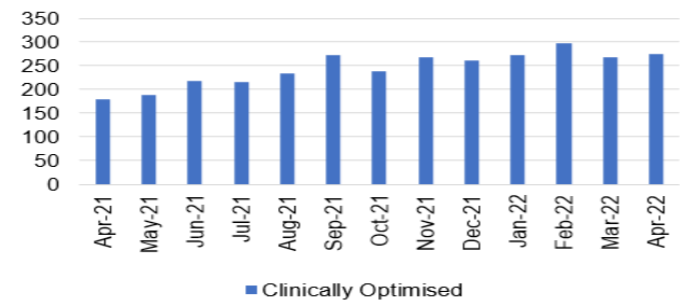

Chart 11: Delay reason for clinically optimised patients

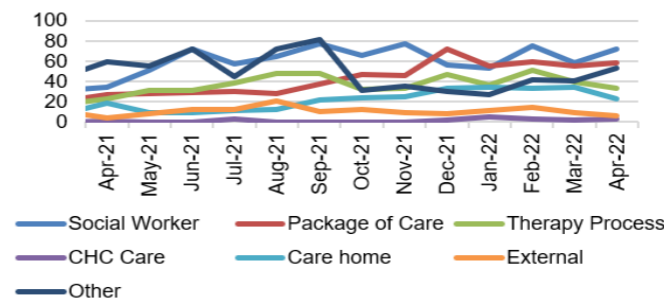

Chart 12: Average lost bed days (per day)

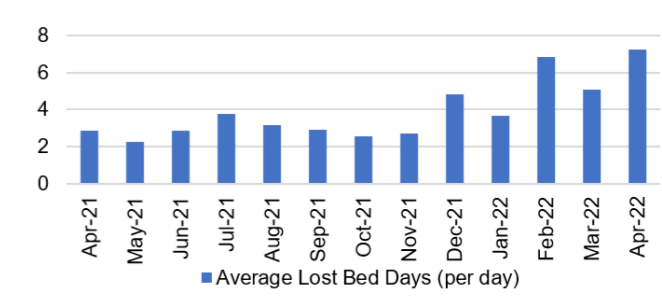

Chart 13: % of thrombolysed stroke patients with a door to door needle time of less than or equal to 45 minutes

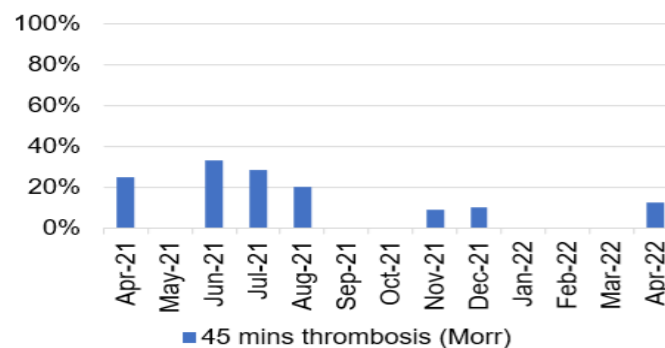

Chart 14: Direct admission to Acute Stroke Unit within 4 hours

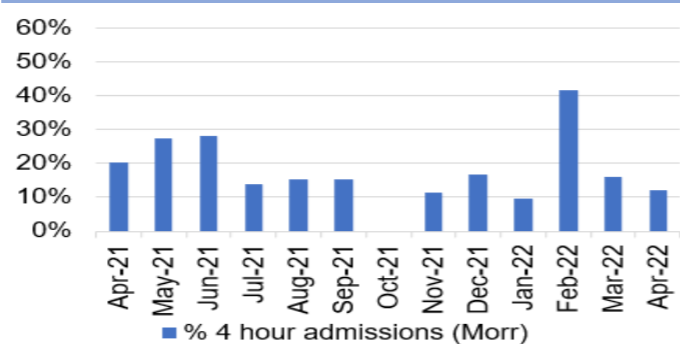

Chart 15: % of stroke patients receiving CT scan with 1 hour

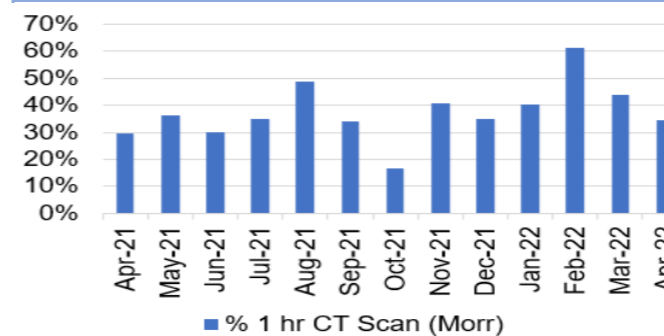

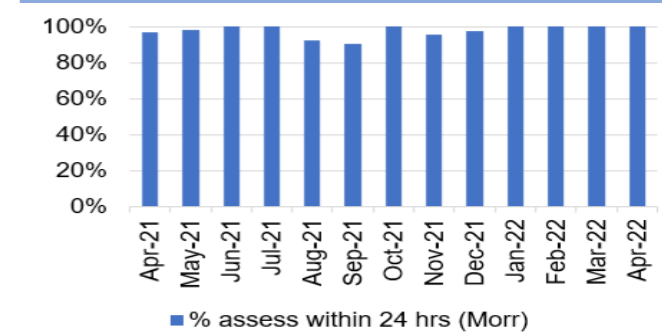

Chart 16: % stroke patients receiving consultant assessment within 24 hours

HARM FROM REDUCTION IN NON-COVID ACTIVITY

Primary and Community Care Overview

Chart 1: Number of patients receiving care from Eye Health Examination Wales (EHEW)

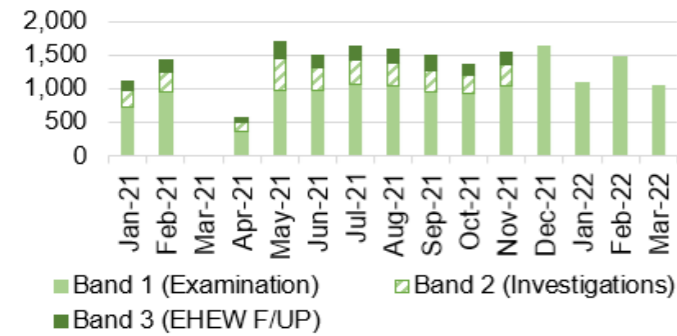

Chart 2: GMS - Escalation Levels

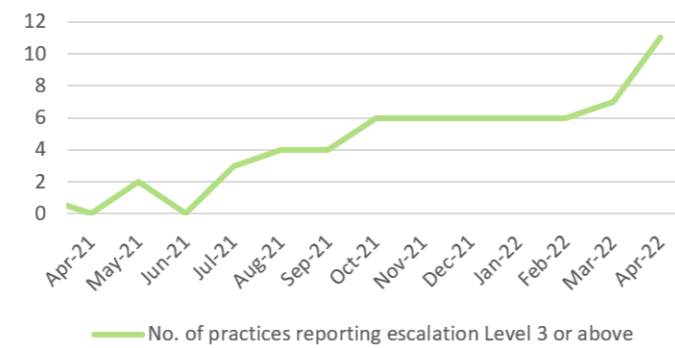

Chart 3: GMS - Sustainability

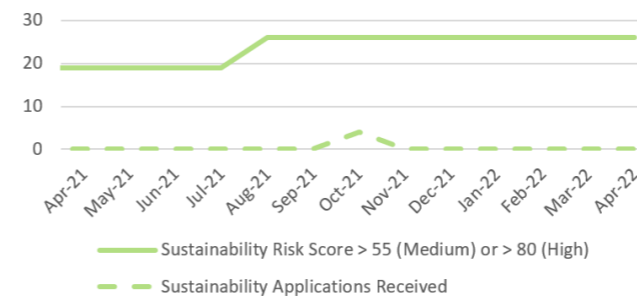

Chart 4: Number and percentage of adult dental patients re-attending NHS Primary Dental Care between 6-9 months

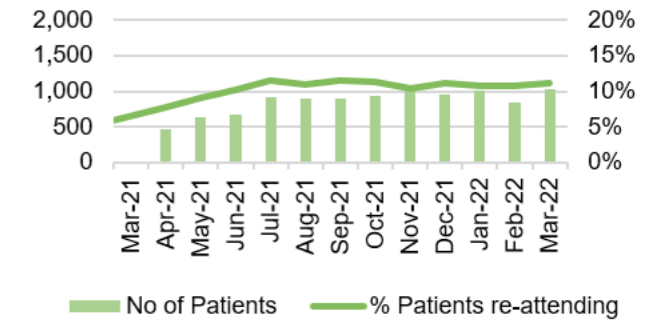

Chart 5: General Dental Services - Activity

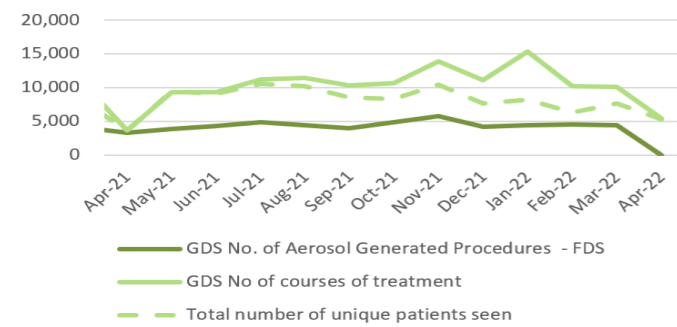

Chart 6: General Dental Services - New Patients

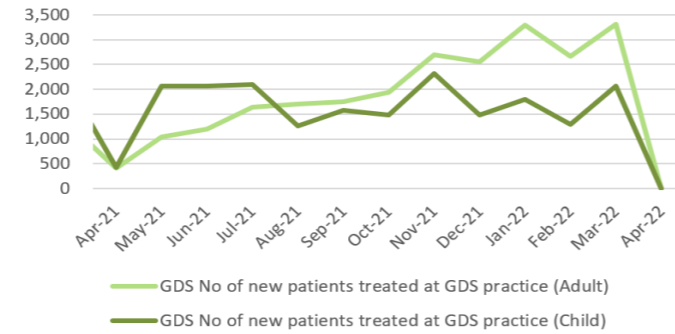

Chart 7: General Dental Services - ACORNs/FV

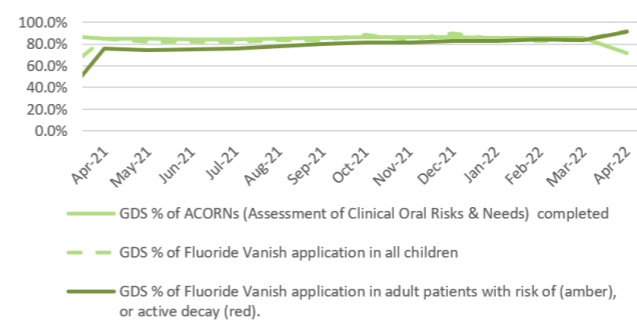

Chart 8: Optometry Activity – sight tests

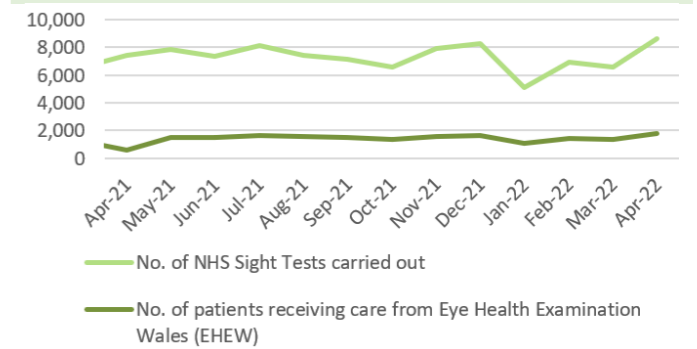

Chart 9: Optometry Activity – low vision care

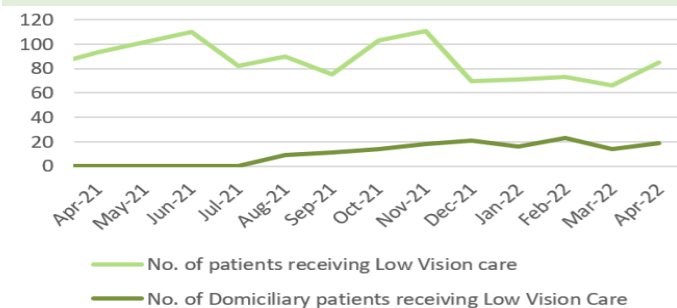

Chart 10: Community Pharmacy – Escalation levels

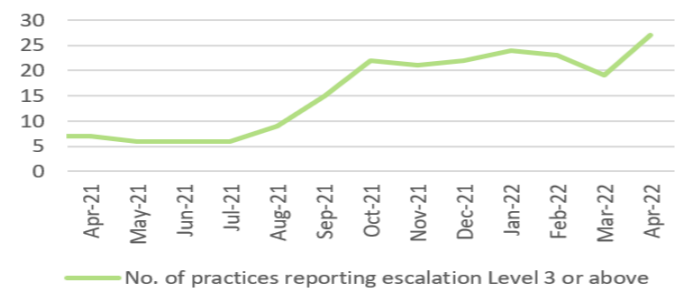

Chart 11: Community Pharmacy – Common Ailment Scheme

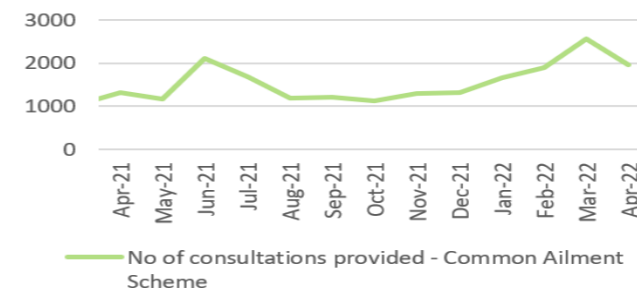

Chart 12: % of patients with a RTT (referral to stage 1) of 26 weeks or less for Restorative Dentistry

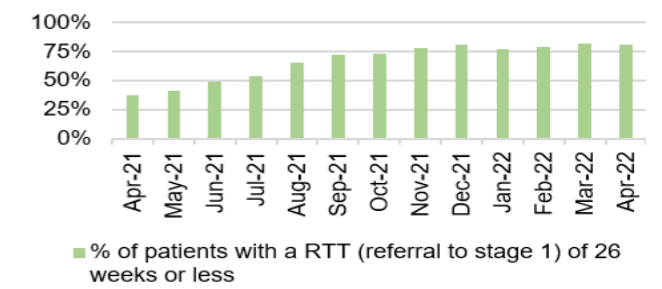

Chart 13: Podiatry - Total number of patients waiting > 14 weeks

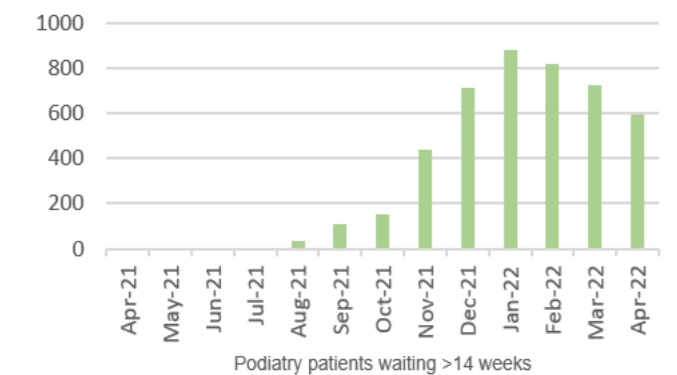

Chart 14: Dietetics - Total number of patients waiting > 14 weeks

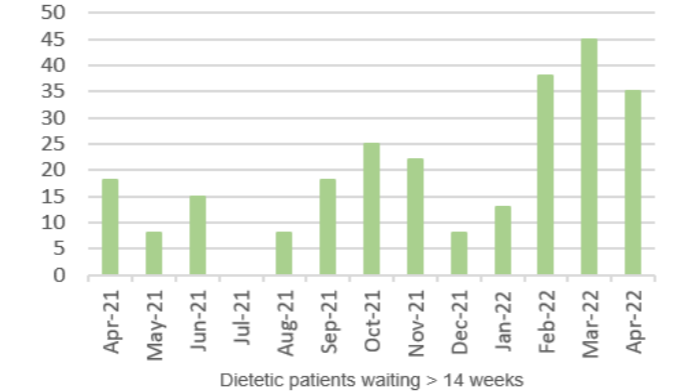

Chart 15: Audiology- Total number of patients waiting > 14 weeks

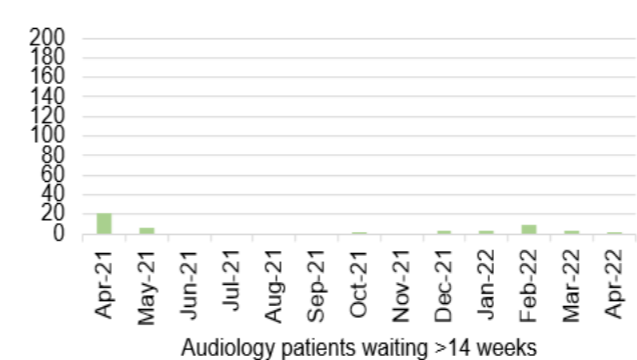

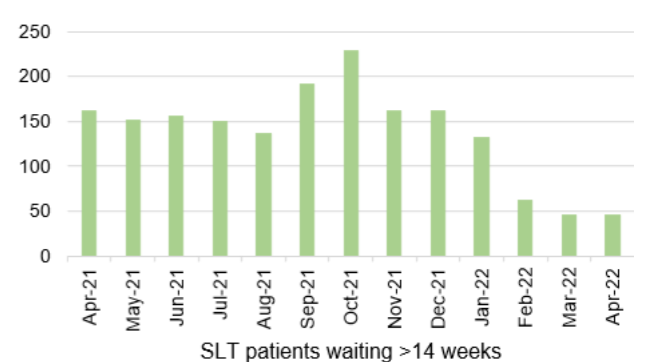

Chart 16: Speech & Language Therapy- Number of patients waiting > 14 weeks

Harm from reduction in non-Covid activity

Planned Care Overview

Chart 1: Number of GP Referrals into secondary care

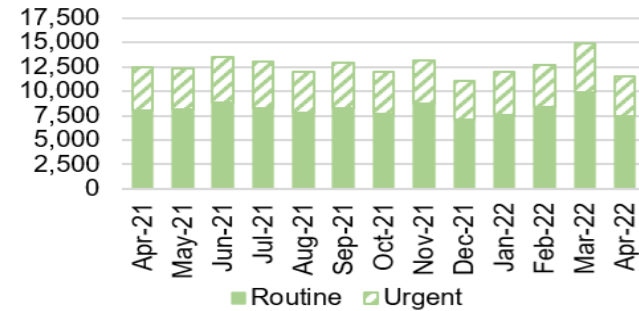

Chart 2: Number of patients waiting over 26 weeks for an outpatient appointment

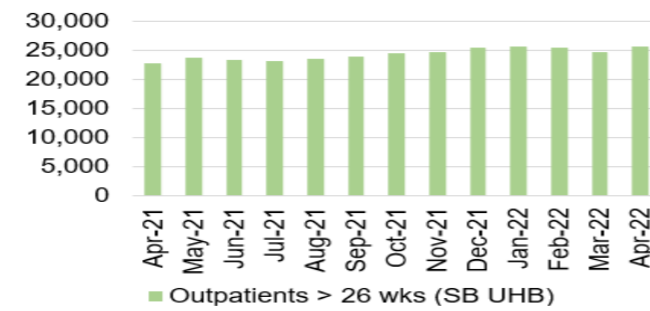

Chart 3: Number of patients waiting over 36 weeks for treatment

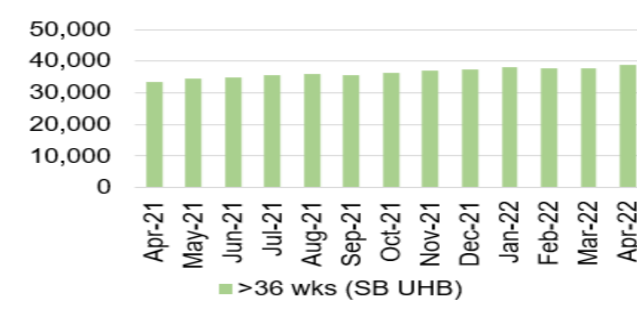

Chart 4: % patients waiting less than 26 weeks from referral to treatment

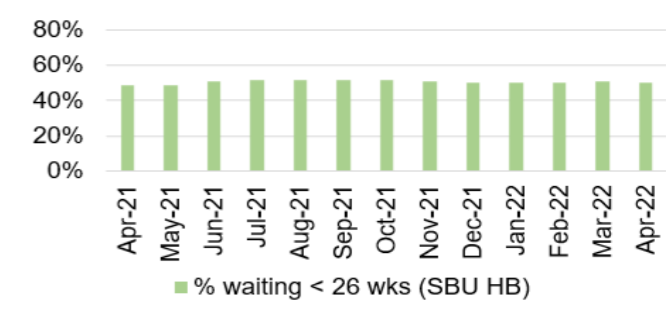

Chart 5: Number of patients waiting for reportable diagnostics over 8 weeks

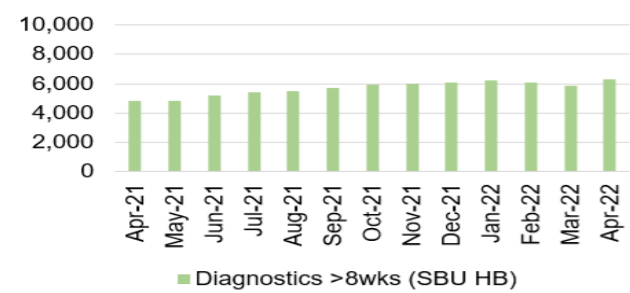

Chart 6: Number of patients waiting for reportable Cardiac diagnostics over 8 weeks

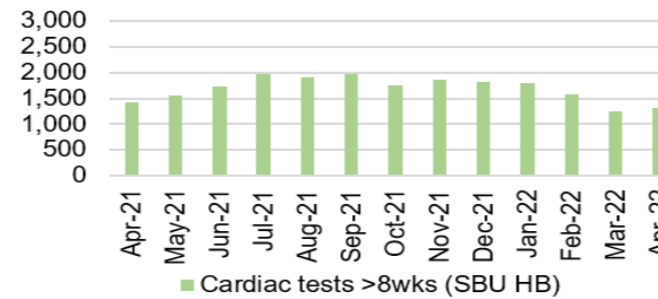

Chart 7: Number of patients waiting more than 14 weeks for Therapies

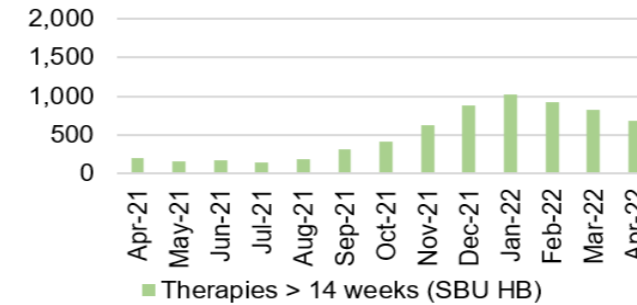

Chart 8: Cancer referrals

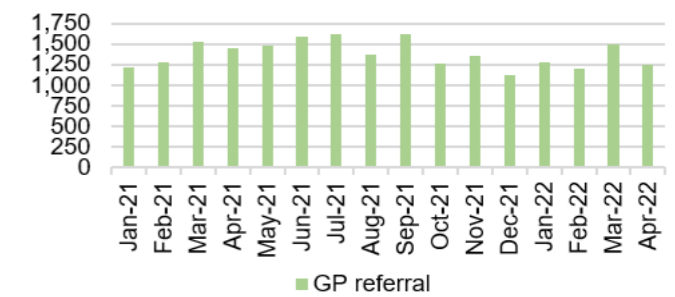

Chart 9: Single Cancer Pathway- % of patients starting definitive treatment within 62 days from point of suspicion

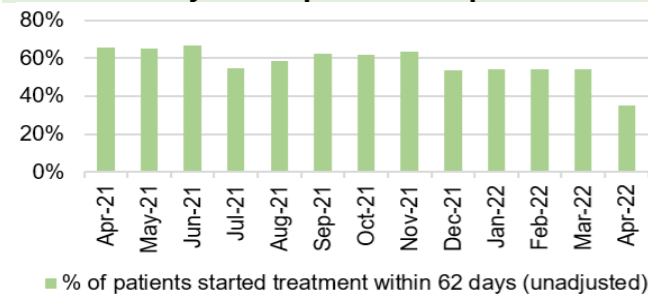

Chart 10: Number of new cancer patients starting definitive treatment

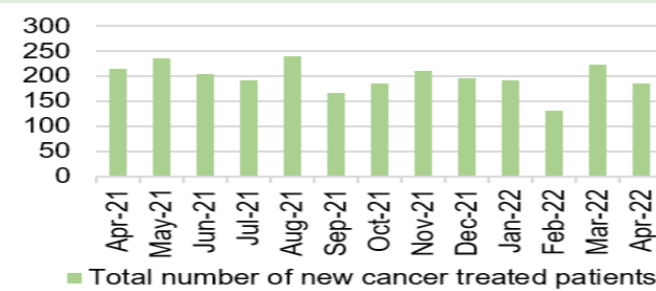

Chart 11: Single Cancer Pathway backlog- patients waiting over 63 days

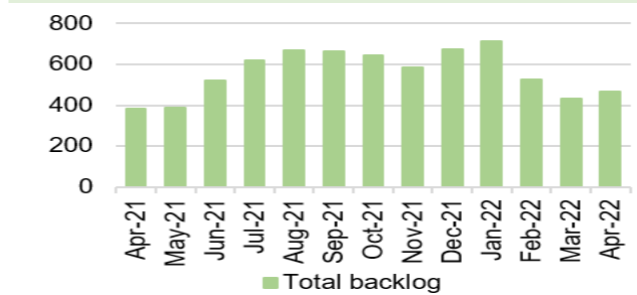

Chart 12: Number of patients waiting for an outpatient follow-up who are delayed past their target date

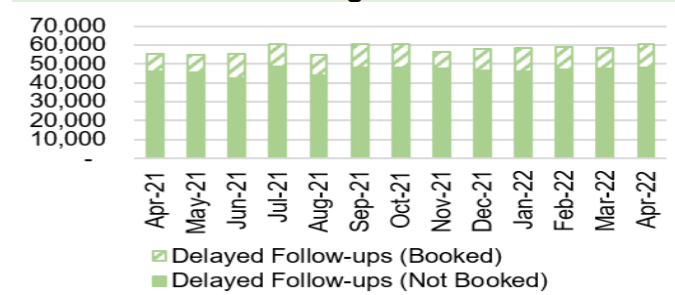

Chart 13: Number of patients without a documented clinical review date

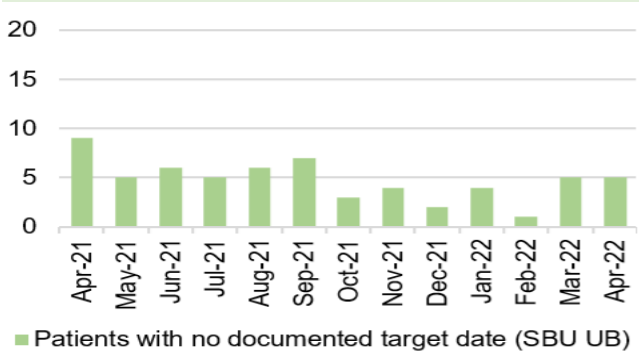

Chart 14: Ophthalmology patients without an allocated health risk factor

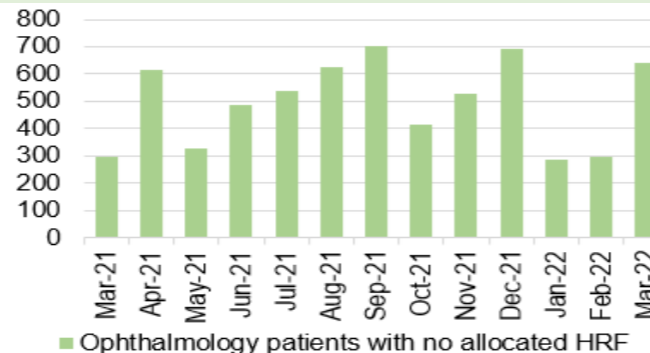

Chart 15: Total number of patients on the follow-up waiting list

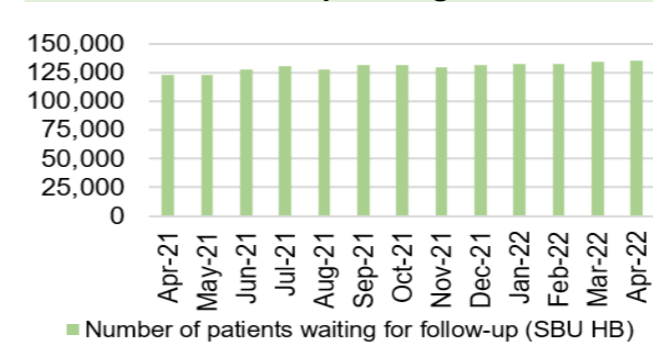

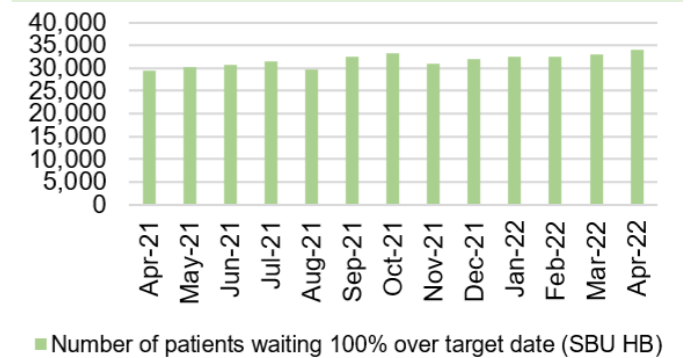

Chart 16: Number of patients delayed by over 100%

HARM FROM WIDER SOCIETAL ACTIONS/LOCKDOWN

Vaccinations and Immunisations

Chart 1: % children who received 3 doses of the hexavalent '6 in 1' vaccine and MenB2 vaccine by age 1

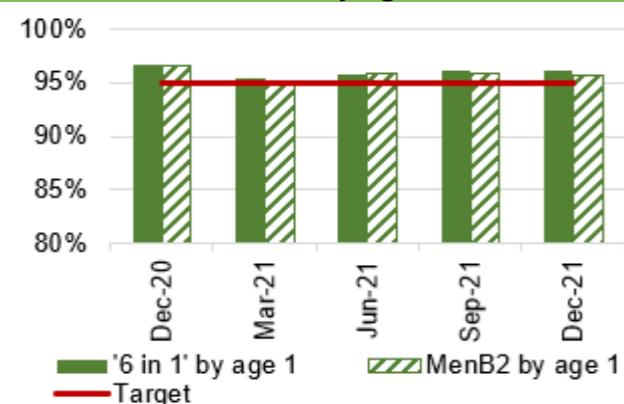

Chart 2: % children who received PCV2 vaccine and Rotavirus vaccine by age 1

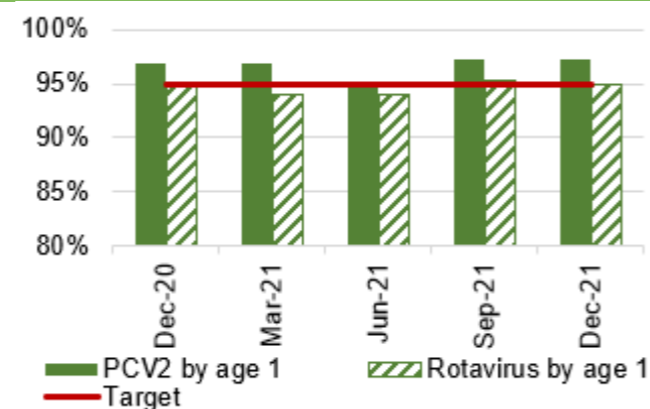

Chart 3: % children who received MMR1 vaccine and PCVf3 vaccine by age 2

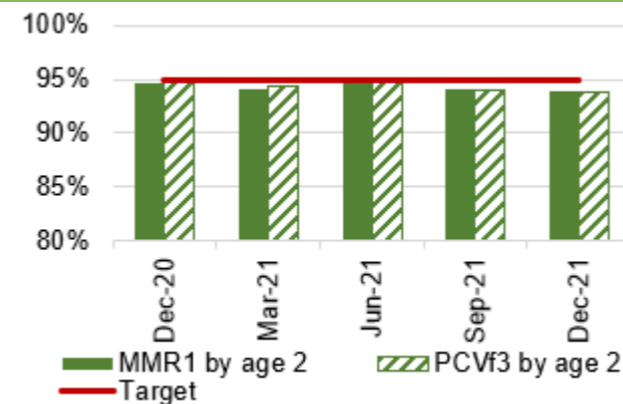

Chart 4: % children who received MenB4 vaccine and Hib/MenC vaccine by age 2

Chart 5: % children who are up to date in schedule by age 4

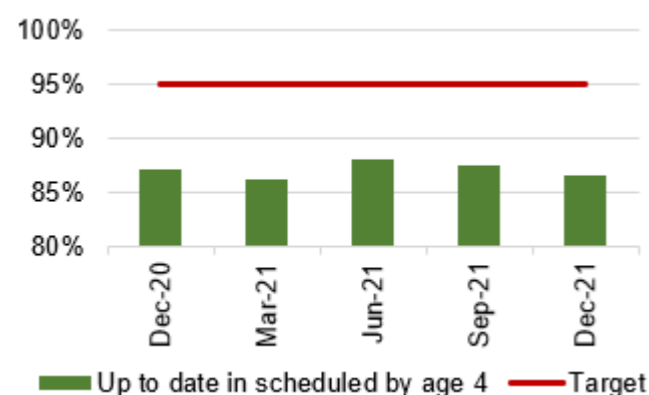

Chart 6: % children who received 2 doses of the MMR vaccine and 4 in 1 vaccine by age 5

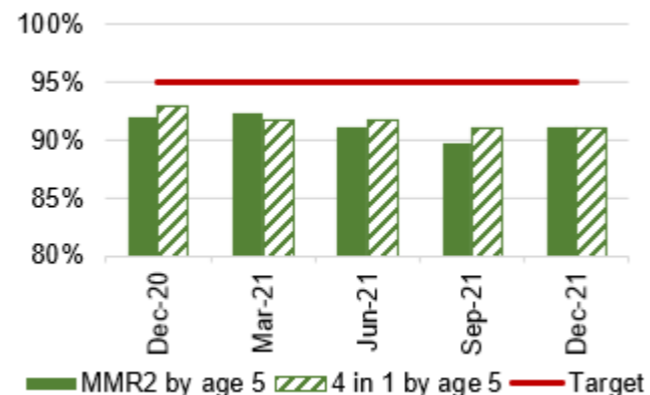

Chart 7: % children who received MMR vaccine and teenage booster by age 16

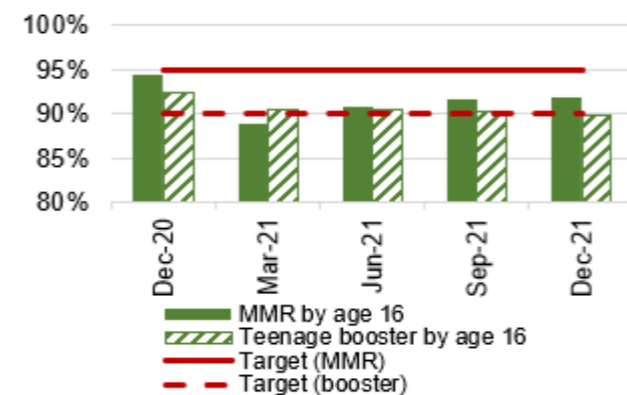

Chart 8: % children who received MenACWY vaccine by age 16

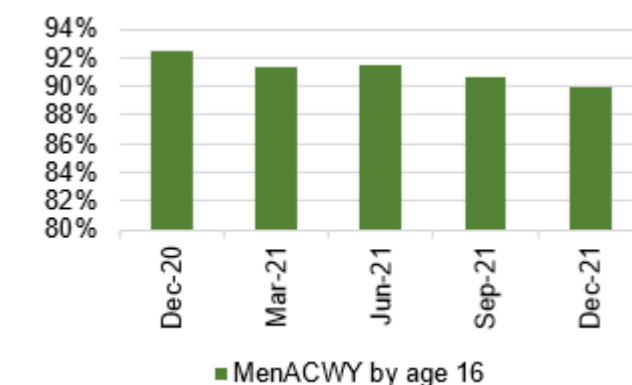

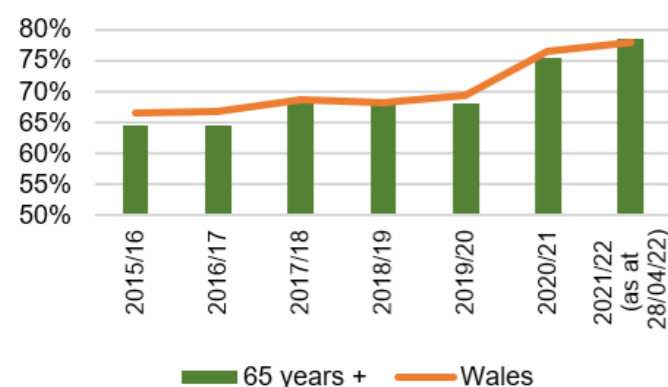

Chart 9: Influenza uptake for amongst 65 year olds and over

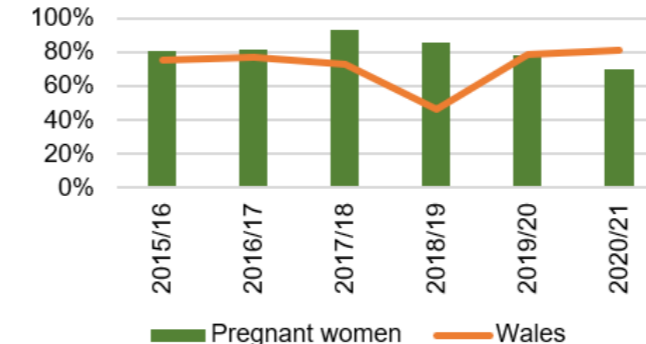

Data prior to April 2019 relates to Abertawe Bro Morgannwg University Health Board

Chart 10: Influenza uptake for amongst under 65s in risk groups

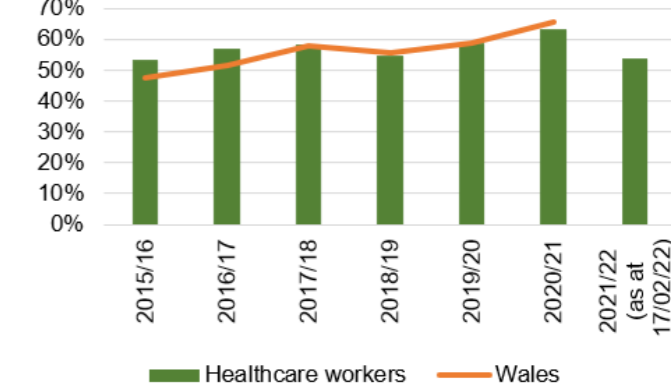

Data prior to April 2019 relates to Abertawe Bro Morgannwg University Health Board

Chart 11: Influenza uptake for amongst pregnant women

Data prior to April 2019 relates to Abertawe Bro Morgannwg University Health Board.
2020/21 data not available

Chart 12: Influenza uptake for amongst healthcare workers

Data prior to April 2019 relates to Abertawe Bro Morgannwg University Health Board.
2020/21 all-Wales data not yet available

HARM FROM WIDER SOCIETAL ACTIONS/LOCKDOWN

Mental Health Overview

Chart 1: % of mental health assessments undertaken within (up to and including) 28 days from the date of receipt of referral

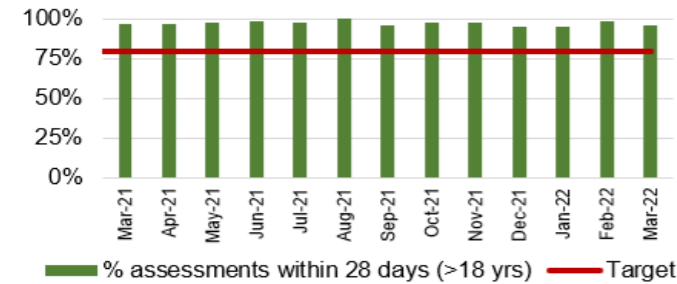

Chart 2: % of therapeutic interventions started within (up to and including) 28 days following an assessment by LPMHSS

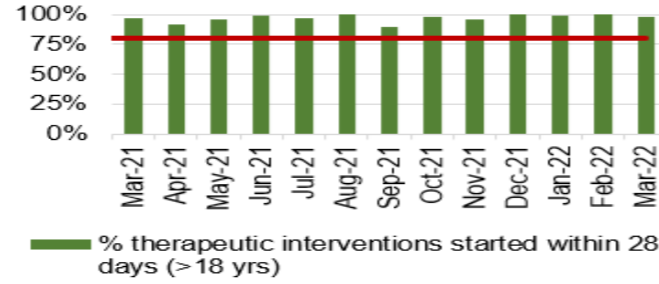

Chart 3: % of health board residents in receipt of secondary mental health services (all ages) who have a valid care and treatment plan

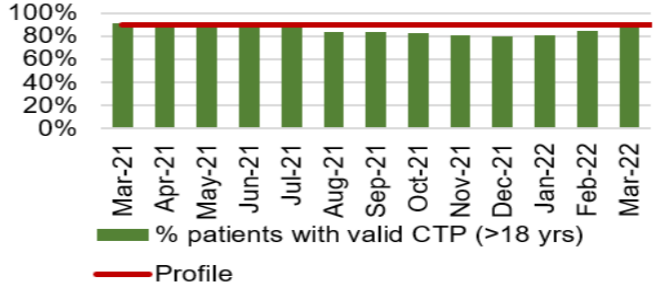

Chart 4: % of patients waiting less than 26 weeks to start a psychological therapy in Specialist Adult Mental Health

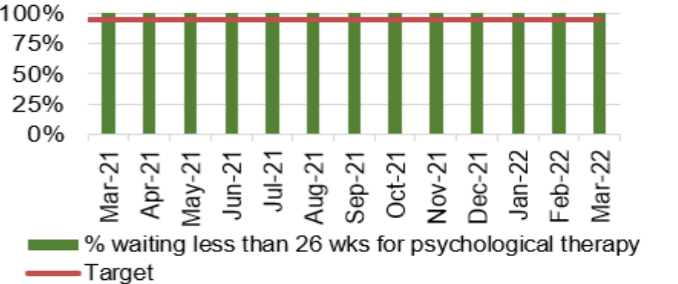

Chart 5: 95% of those admitted 0900-2100 will receive a gate-keeping assessment by the CRHTS prior to admission

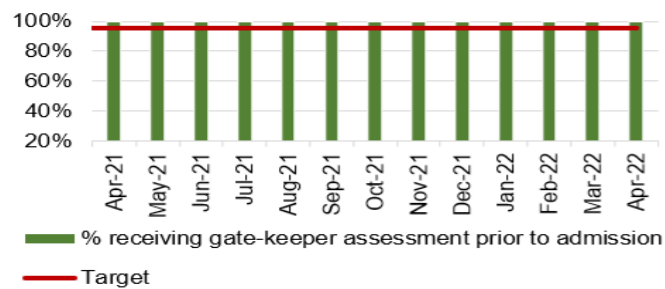

Chart 6: 100% of those admitted without a gate keeping assessment will receive a follow up assessment by CRHTS within 24hrs of admission

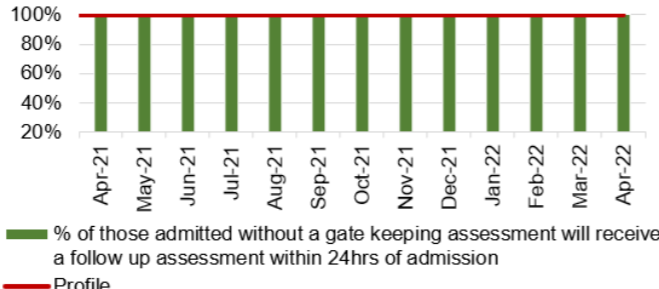

Chart 7: % of patients waiting under 14 weeks for Therapies

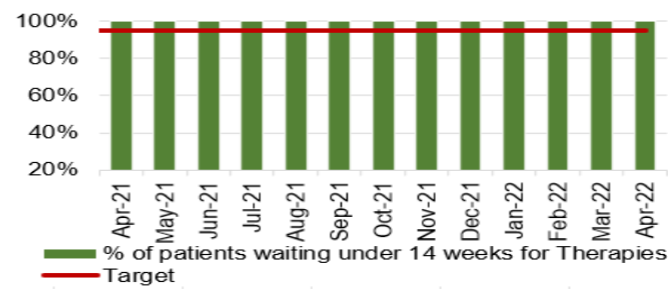

Chart 8: Number of Mental Health Delayed Transfers of Care (DTOCs)

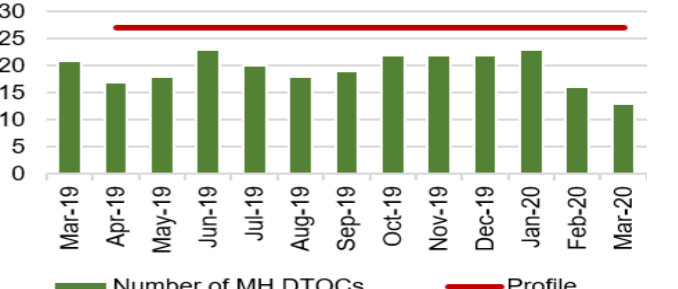

Chart 9: Number of patients detained under the Mental Health Act as a percentage of all admissions

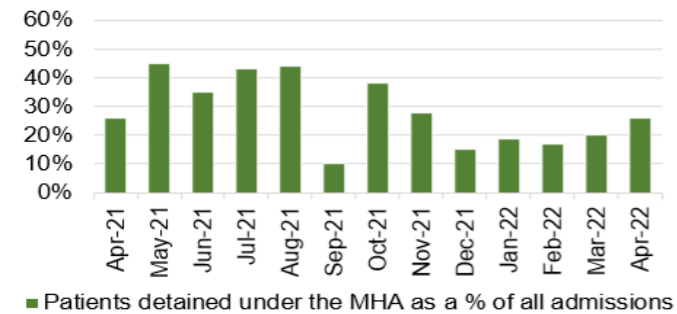

Chart 10: Number of patients subject to Deprivation of Liberty Safeguards (DOLS)

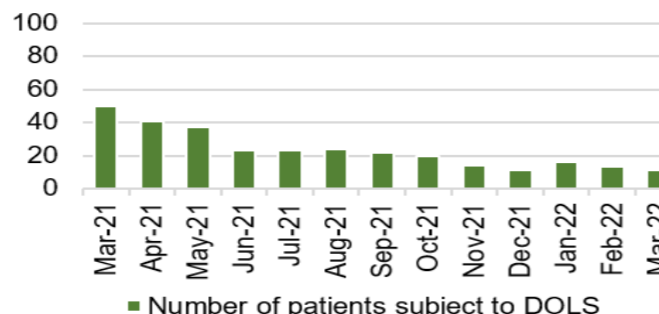

Chart 11: Number of Serious Incidents

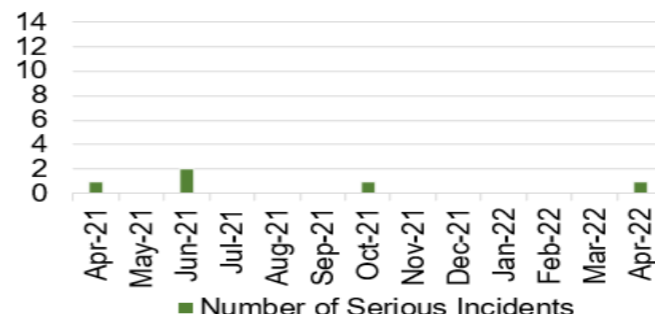

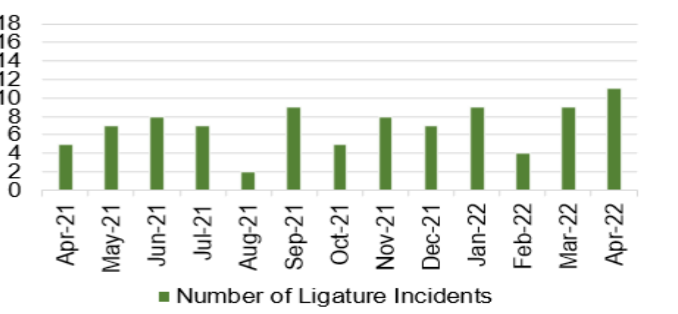

Chart 12: Number of ligature incidents

Child & Adolescent Mental Health Services (CAMHS)

Chart 13: Urgent assessments undertaken within 48 hours from receipt of referral

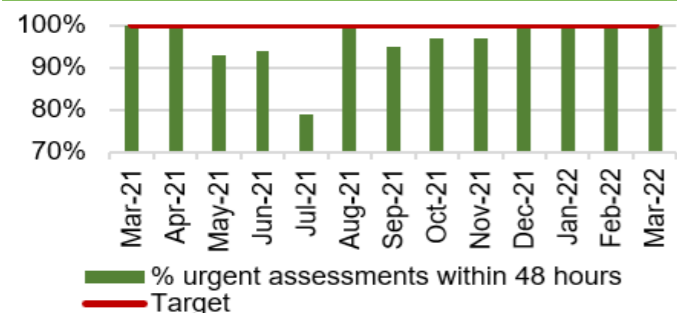

Chart 14: Neuro-developmental disorder assessment and intervention received within 26 weeks

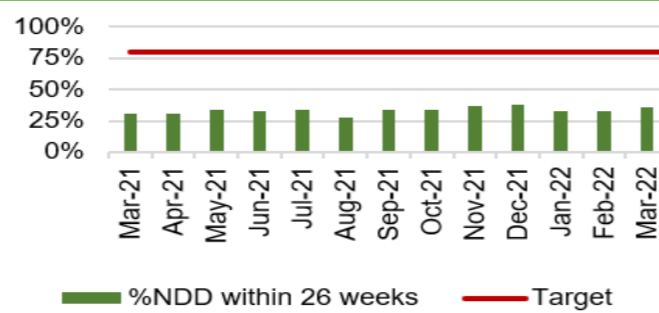

Chart 15: Assessment and intervention within 28 days

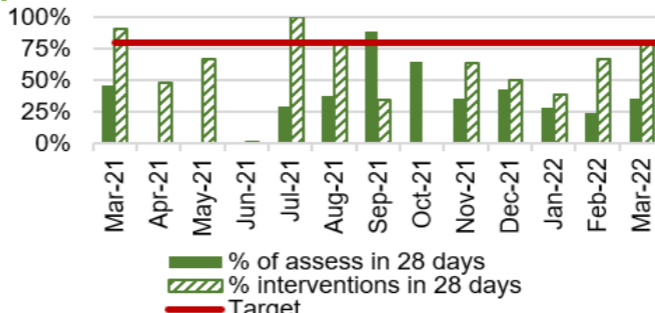

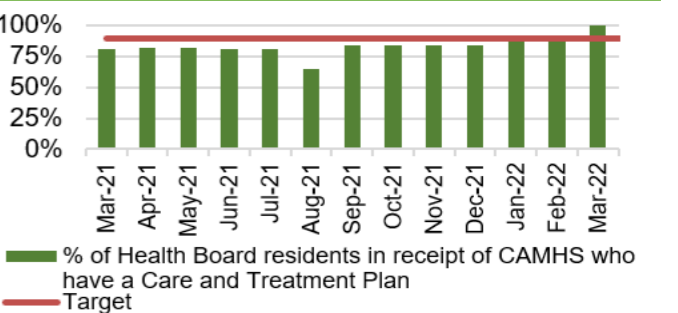

Chart 16: % of residents with a Care and Treatment Plan
