# Quality and Safety Committee Terms of Reference

## 1. Introduction

Abertawe Bro Morgannwg University Health Board's standing orders provide that *"The board may and, where directed by the Welsh Government must, appoint committees of the health board either to undertake specific functions on the board's behalf or to provide advice and assurance to the board in the exercise of its functions. The board's commitment to openness and transparency in the conduct of all its business extends equally to the work carried out on its behalf by committees"*.

In line with standing orders (and the health board's scheme of delegation), the board shall annually nominate a committee to be known as the Quality and Safety Committee. This committee's focus is on all aspects aimed at ensuring the quality and safety of healthcare, including activities traditionally referred to as "clinical governance". The detailed terms of reference and operating arrangements set by the board in respect of this committee are set out below.

## 2. Purpose

The purpose of the Quality and Safety Committee is to provide:

- evidence based and timely advice to the board to assist it in discharging its functions and meeting its responsibilities with regard to the quality and safety of healthcare; and
- assurance to the board in relation to the health board's arrangements for safeguarding and improving the quality and safety of patient centred healthcare in accordance with its stated objectives and the requirements and standards determined for the NHS in Wales.

## 3. Delegated Powers and Authority

lines of accountability;

- the organisation, at all levels (locality/directorate/clinical team), has the right systems and processes in place to deliver, from a patient's perspective - efficient, effective, timely and safe services;
- the workforce is appropriately selected, trained, supported and responsive to the needs of the service, ensuring that professional standards and registration/revalidation requirements are maintained;
- there is an ethos of continual quality improvement and regular methods of updating the workforce in the skills needed to demonstrate quality improvement throughout the organisation;
- there is good team working, collaboration and partnership working to provide the best possible outcomes for its citizens;
- risks are actively identified and robustly managed at all levels of the organisation;
- decisions are based upon valid, accurate, complete and timely data and information;
- there is continuous improvement in the standard of quality and safety across the whole organisation – continuously monitored through the Health and Care Standards for Wales;

The committee will advise the board on the adoption of a set of key indicators of quality of care against which the health board's performance will be regularly assessed and reported on through annual reports.
