Description	Current Performance	Trend	Actions planned for next period
Staff sickness rates- Percentage of sickness absence rate of staff	• The 12 month rolling performance to the end of January 2019 is 5.92% (down 0.07% on December 2018). Our in month performance in January 2019 was 6.48%, an increase of 0.05% on the previous month	% of full time equivalent (FTE) days lost to sickness absence (12 month rolling) 6% 5% 4% 3% 2% 1% 0%	 Outputs of a best practise case study conducted in three areas of good sickness performance have been shared with DU's and learnings are to be implemented via local sickness improvement plans. Development of a pilot has commenced within a selected area in order to address high absence some of which will apply learning from the above best practise case study. Training sessions for managers regarding the new all-Wales Managing Attendance policy. Development of a full training plan to support implementation of the new Attendance policy. OH Improvement Plan completed with targets for reductions in waiting times approved by Exec Board. Plans to develop a more multidisciplinary approach during 2019. Delivering Invest to Save 'Rapid Access - Staff Wellbeing Advice and Support Service' enabling early intervention for Musculoskeletal (MSk) and Mental Health, ideally within 5 days (90 referrals monthly) and expediting to MSk diagnostics and surgery when required. This model accepted as Bevan Exemplar 2018/19. 300+ Staff Wellbeing Champions now trained to support their teams health and wellbeing and signpost to HB support services, promoting a prevention/early intervention approach. To deliver 'menopause wellbeing workshops' across 4 main sites during Spring 2019 Draft Attendance plan has been developed as part of the R and S. Awaiting sign off by W&OD committee.

Mandatory & Statutory Training- Percentage compliance for all completed Level 1 competencies within the Core Skills and Training Framework by organisation	 February 2019 compliance against the 13 core competencies is 73.37%. This is a 0.15 % increase from January 2019 and an 18.80% rise since April 2018. First two weeks in January ESR e-learning was not available. This was a national issue, which resulted in no new competencies being completed. Furthermore, staff were advised to not complete e-learning during this period of time. ESR e-learning system came back into use in the 3rd week of January. 	% of compliance with Core Skills and Training Framework 80% 70% 60% 50% 40% 30% 20% 10% 0% All Level 1 Compliance Profile	 E-learning drop in sessions are continuing across the current health board and all sites on a regular basis, with the boundary changes coming into effect from end of March and dates programed into POWH will be handed over to Cwm Taff to hold. Dates and location have already been handed over. A review of the Mandatory Training framework is being planned where all relevant Subject Matter Experts will be invited to a workshop to discuss current and to identify new trends that may need to be introduced. The results of the NWSSP Audit were received and feedback is still to occur Due to the impending change of boundaries the work involved in Position numbers has taken a back step, however, will become a higher priority as we move forward identifying further training that are essential for specific areas of work and for this to included in ESR staff competencies requirements A date has been arranged April 15th for further examination of the ESR system, we are awaiting confirmation of the identity of the person from Informatics, as the current person will no longer be involved. Two new user guides have been created, a longer version which explains in detail and step by step that covers ANTT and a short version that covers Mandatory & Statutory requirements incorporating the updated access and use of elearning in a simple one click process.
