

## **Burns and Plastic Surgery Occupational Therapy**

### **Instructions for using Otoform**

#### **Directions for use**

- Clean the area to be treated with mild non-perfumed soap and water, pat dry.
- Apply Otoform mould as directed by your key worker.

#### **Care of Otoform**

- Otoform mould can be rinsed in lukewarm soapy water and air/towel dried.
- Use for up to three months then discard and contact key worker if further moulds are required.
- Store all moulds in plastic bags when not in use at room temperature.

**If you require any further guidance or have any questions about the Otoform Mould or if the scar area shows any evidence of skin irritation, rash, open or weeping areas, remove mould and contact your key worker.**
