I refer to your Freedom of Information Act Request acknowledged by ourselves on 8th November 2019. Your request sought information relating to decontamination policies.

I am collecting cleaning, disinfection and decontamination procedures/policies of NHS trusts in order to evaluate their homogeneity. I am interested, in particular, in policies containing detailed lists of objects and the associated decontamination regimens (cleaning methods and frequency). I was not able to retrieve such information on your website. Would it be possible to have it?

Please see attached Infection Prevention & Control Policy.

We have also attached various flow charts used in the Health Board to determine the level of clean required after a patient is discharged. The higher the 'transmission risk' of organisms being dealt with, the higher the level of clean that is required. So the 2D clean is the lowest level, moving onto the 4D clean which is the highest.

I hope this information is helpful. If you require anything further please contact us at FOIA.Requests@wales.nhs.uk.

Under the terms of the Health Board's Freedom of Information policy, individuals seeking access to recorded information held by the Health Board are entitled to request internal review of the handling of their requests. If you would like to complain about the Health Board's handling of your request please contact me directly at the address below or register your complaint via FOIA.Requests@wales.nhs.uk.
