I refer to your Freedom of Information Act Request acknowledged by ourselves on 24th October 2019. Your request sought information relating to mental health disorders.

Please can you provide a breakdown of the number of Welsh domiciled patients in your health board area who are receiving, or have received, permanent treatment lasting over six months for Mental Health disorders in facilities based outside of Wales for the current financial year and for each of the last five full financial years?

Please see below the information you require. Our priority is always to ensure patients receive the best possible care, treatment and support for their individual needs. On occasion, this can be outside of their health board area. Typically this could be due to geographical considerations (in the case of patients registered with GP practices along the Health Board boundaries), or the admission could be as a result of an emergency. Such circumstances are kept to a minimum and always dictated by clinical need and benefit to the patient.
