

Rydym yn croesawu gohebiaeth yn y Gymraeg neu'r Saesneg. Atebir gohebiaeth Gymraeg yn y Gymraeg, ac ni fydd hyn yn arwain at oedi. We welcome correspondence in Welsh or English. Welsh language correspondence will be replied to in Welsh, and this will not lead to a delay.

## **Cais Rhyddid Gwybodaeth / Freedom of Information request** **Ein Cyf / Our Ref: 22-G-009**

### **You asked:**

Please note that we have provided this information for the period April to June 2022.

### **1. In the past 3 months, how many Breast Cancer patients (any stage) were treated with:**

- **Abemaciclib monotherapy**

Please note that we can provide the number of patients on Abemaciclib only, however figures on combinations with other medications prescribed by the GP are not available.

8 patients were treated with Abemaciclib either as a single agent or in combination with other medications.

- **Aromatase inhibitor monotherapy (e.g. anastrozole, exemestane, letrozole)** – these medications are prescribed by the GP in Primary Care, therefore you will need to contact the GP Surgeries for this information.
- **Tamoxifen monotherapy** – these medications are prescribed by the GP in Primary Care, therefore you will need to contact the GP Surgeries for this information.
- **Abemaciclib + Tamoxifen** – these medications are prescribed by the GP in Primary Care, therefore you will need to contact the GP Surgeries for this information.
- **Abemaciclib + Tamoxifen + Goserelin** – these medications are prescribed by the GP in Primary Care, therefore you will need to contact the GP Surgeries for this information.
- **Abemaciclib + Aromatase Inhibitor (e.g. anastrozole, exemestane, letrozole) + Goserelin** – these medications are prescribed by the GP in Primary Care, therefore you will need to contact the GP Surgeries for this information.
- **Aromatase inhibitor + Goserelin** – these medications are prescribed by the GP in Primary Care, therefore you will need to contact the GP Surgeries for this information.

- **Tamoxifen+ Goserelin** – these medications are prescribed by the GP in Primary Care, therefore you will need to contact the GP Surgeries for this information.

**2. How many patients have been treated for Triple-Negative Breast Cancer (any stage) in the past 3 months with the following systemic anti-cancer therapies:**

- **Anthracycline (e.g. doxorubicin or epirubicin) as a single agent**
- **Atezolizumab +Nab-paclitaxel/Paclitaxel**
- **Pembrolizumab**
- **Sacituzumab Govitecan**
- **Parp Inhibitors (Olaparib/Talazoparib)**
- **Eribulin as a single agent or in combination**
- **Capecitabine as a single agent**
- **Platinum (e.g. carboplatin or cisplatin) as a single agent**
- **Taxane (e.g. docetaxel, paclitaxel, nab-paclitaxel) as a single agent**
- **Taxane and/or Anthracycline in combination**
- **Any other active systemic anti-cancer therapy**

I can confirm that this information is not held centrally. Our Pharmacy systems do not record staging information and to obtain this information would involve a manual trawl and search of records which we have estimated would significantly exceed the 18 hours limit set down by the FOI Act as the reasonable limit. Section 12 of the FOI Act and The Freedom of Information and Data Protection (Appropriate Limit and Fees) Regulation 2004 provides that we are not obliged to spend in excess of 18 hours in any sixty day period locating, retrieving and identifying information in order to deal with a request for information and therefore we are withholding this information at this time.
