You asked:

Please can you tell me how much money Swansea Bay University Health Board has applied for to fix issues related to reinforced autoclaved aerated concrete (RAAC) in the building in the last 10 years and up to the end of the current NHS spending review period. If there are multiple hospitals looked after by this Health Board, please separate the sums applied for each.

The Health Board, as part of its recent Six Facet Review, identified sites that could be at risk of having autoclave aerated concrete. We have now commissioned a detailed review to identify where there is RAAC. Where this has been identified action plans will be developed to address the issues.

I can confirm that no funds have been applied for to date.
