What to do when someone dies at home?

When someone dies at home you will need to let the District Nurse or GP know as soon as you can, who will guide and support you. You do not need to phone 999. Please leave any medical equipment in place, i.e. syringe driver.

Discharge information for End of Life Care.

There can be many questions about caring for someone at home at the end of their life. This leaflet intends to help you find out what help and support is available.

Remember this leaflet is only a guide.

For more information, while in hospital please speak to staff on the ward, Discharge team, the Specialist Palliative Care Team or End of Life Care Service.
